

THE WORLD ASSOCIATION FOR DISASTER AND EMERGENCY MEDICINE

Requests Input and Expressions of Interest in the Development of Regional Chapters

The World Association for Disaster and Emergency Medicine (WADEM) is an international, humanitarian association dedicated to the improvement of disaster and emergency medicine. Its Board of Directors, pursuant to decisions of the Board made at Edinburgh, Scotland, May, 2005, hereby offer the designation of WADEM Chapters to nation-states, nation-state provinces, or individual states, regional organizations and recognized healthcare societies of these entities who share the mission and dedication of WADEM.

Chapters will have an academic, research, and/or operational focus and will participate as a recognized chapter to further develop for the WADEM and the individual chapter membership:

- Education and training
- Interpretation and exchange of information through its network of members and publications
- Development and maintenance of evidence-based standards of emergency and disaster health care and provision of leadership concerning their integration into practice
- Coordination of data collection and provision of direction in the development of standardized disaster assessment and research and evaluation methodologies
- Encourage publications and presentation of evidence-based research findings in scientific publications, national, regional, and international conferences, and congresses
- Will foster and deliberately promote, whenever possible, the recognition of a regional, national, and or profession-specific knowledge base for the general WADEM membership. The WADEM agrees to recognize these advances in publications, conferences, congresses, task forces, and committees.

Interested in developing a Regional Chapter?
