# To the Medical Profession

## *Safeguarding the Deaf*

FORTIPHONE LIMITED have pleasure in submitting to the medical profession an outline of the Plan which they have arranged to protect the deaf from the serious financial loss and disappointment entailed by the purchase of an unsuitable hearing aid. It is known as the

# FORTIPHONE Home Trial Plan

**1.** We advise that, before purchasing a Fortiphone be taken on Home Trial for 15 or 30 days on payment of One Guinea or Two Guineas respectively. This enables a thorough test to be made at home under everyday conditions, and uninfluenced by any interested. The Fee covers cost of batteries, insurance, packing, carriage, wear and tear, etc. It also has a psychological value.

**2.** If the deaf person decides to purchase the Fortiphone, the full Trial fee is deducted from the purchase price. In the alternative, no serious financial loss is sustained, and the deaf person does not feel that there is any "moral obligation" to complete the purchase.

**3.** We supply full directions and, during the Trial, advise the customer how to use the Fortiphone in order to obtain the best results.

**4.** We send if required, without additional charge, different models in order that the deaf person may finally select the Fortiphone which is most suitable.

**5.** Convenient terms of divided payments are arranged, if desired.

### *An Invitation*

Fortiphone Limited extend a cordial invitation to any member of the medical profession to send for full particulars of the latest models of the Fortiphone. Fortiphone Limited will also gladly arrange special demonstrations for doctors or their patients. Full details of arrangements will be furnished on request.

# The Journal of Laryngology and Otology

(Founded in 1887 by MORRELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

WALTER HOWARTH

ASSISTED BY

V. E. NEGUS AND F. W. WATKYN-THOMAS

1. Original Articles are accepted on the condition that they have not been published elsewhere.
2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.
3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.
4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.
5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.
6. Editorial Communications should be addressed to "Editor, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."
7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.
8. Single Copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.
9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

## UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & Co., 31-33 East 10th Street, New York.

# DISEASES OF THE NOSE AND THROAT

Comprising Affections of the Trachea and Œsophagus

By SIR ST CLAIR THOMSON,  
M.D., F.R.C.P. Lond., F.R.C.S. Eng.

“It was stated dogmatically in the review of the first edition that this is the best book of its kind in the English language, and there is every reason to ratify that opinion now, fifteen years later.”—*British Medical Journal*.

“The very high standard set by Sir St Clair Thomson in the earlier editions has been fully maintained.”—*Lancet*.

“Sir St Clair Thomson’s *magnum opus* has been well described as ‘the laryngologist’s Bible.’ . . . The work as a whole reflects credit on British Laryngology and on its eminent author.”—*The Practitioner*.

“Un livre dont le succès a été mondial. . . . Ce livre est, actuellement, le meilleur traité didactique paru sur la Rhino-Laryngologie.”—*Annales des Maladies de l’Oreille*.

“The work . . . should be in the library of every pædiatrist.”—*British Journal of Children’s Diseases*.

“The book has a position quite beyond challenge.”—*Medical Press and Circular*.

“The illustrations, increased in number, are admirably chosen, many being entirely new. . . . [The author’s] book is but one of the many services he has rendered to laryngology, and reflects the utmost credit on British medicine.”—*Journal of Laryngology and Otology*.

“No master of science could have a more worthy monument.”—Dr. BRYSON DELAVAN, the doyen of New York laryngology.

Medium 8vo, 960 pages, with 12 Colour and 12 Black-and-White Plates and 379 Figures in the Text. Cloth gilt, 45s. net.

*CASSELL & Co., Ltd., La Belle Sauvage, London, E.C. 4*

### CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY, LARYNGOSCOPY, AND BRONCHOSCOPY

New Models as made for Walter G. Howarth, F.R.C.S.

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are **less expensive than other American or English models**, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

*Manufactured only by*
