

CORRIGENDUM

Age-Related Changes in Error Monitoring of an Everyday Task – CORRIGENDUM

S. Balouch, AND J. Rusted

doi:10.1017/S1355617713000519, Published by Cambridge University Press, 23 May, 2013.

In the original publication of ‘Age-Related Changes in Error Monitoring of an Everyday Task’ (Balouch and Rusted, published online 23 May 2013) there were errors introduced. On p3, line 250-51 the sentence should read as follows: “... followed by the neuropsychological measures and finally the TT.” Also, on p5, lines 359-60 should read as follows: “...($F[1,55] = 6.62; p = .02; \eta^2 = .11$)...” The author regrets these errors.
