

INDEX OF SUBJECTS

- Aberdeen, infantile gastro-enteritis in, 1
 Agglutination of red blood cells of animals by influenza and Newcastle disease viruses, 239
 Animal faeces, longevity of coliform organisms in, 269
 Animals, laboratory, feeding and breeding of, 315, 434
 Antibodies, natural, in the blood serum of fresh-water fish, 267
 Antigen, labile, of *Shigella dysenteriae* Shiga, 65
 Antigens, prophylactic, combined *pertussis*-diphtheria, 117
 Antihorse serum (rabbit) and horse serum, reaction between, 129
 Antiseptics and bacterial lysis, 62
- Bacillus dysenteriae* Flexner, adaptive variation and rejuvenation in, 331
 Bacteria, capsules and mucoid envelopes in, 345
 Bacteria, counting of surface colonies, 426
 Bacteria, nuclear reorganization in non-sporing, 173
 Bacterial flora of fresh-water fish, seasonal changes in, 94
 Bacterial lysis and antiseptics, 62
 Bacterial nucleus, observations on, 264
 Bacterial sensitivity to sulphonamides, simple method of determining, 422
 Bacteriophage, typing staphylococci by, 74
Bacterium coli infection in gastro-enteritis, 1
Bacterium paratyphosum B, see *Salmonella paratyphi* B
Bacterium typhosum, see *Salmonella typhi*
 Breeding and feeding of laboratory animals, 315, 434
Brucella abortus in the cattle of Mauritius, 419
- Capsules in bacteria, 345
 Carriers, temporary and chronic, of *Salmonella typhi* and *Salmonella paratyphi* B, 252
 Cattle in Mauritius, *Brucella abortus* in, 419
 Climate and morbidity, notes on, 311
 Coliform organisms in the Melbourne water supply and in animal faeces, 269
 Coliform organisms, longevity in faeces and soil, 269
 Colonies of bacteria, surface, counting of, 426
 Conglutination phenomenon, the, 296
 Cross-infection in hospital due to *Salmonella derby*, 158
 Cyanogen chloride, formation during chlorinization of certain liquids. Toxicity to fish, 184
- Diabetes mellitus in school medical administration, 440
 Diphtheria, combined active and passive immunization against, 34
 Disinfection, dynamics of:
 XII. Effect of variation of pH, 136
 XIII. Nature of probit-log survival time, 280
 XIV. Variation of the concentration exponents for hydrogen and hydroxyl ions with mortality level, 289
- Ectromelia infections, epizootic behaviour of, 383
 Ectromelia virus, serological relationship to vaccinia virus, 378
 Electron microscope studies of spirochaetes, 438
- Entamoeba histolytica* in wild rats in London, 90
 Enteritis, infantile, in Aberdeen, 1
 Epidemiology of smallpox in Tripolitania, 351
 Errata, 465
 Esters, action on growth of *Mycobacterium tuberculosis*, 60
- Faeces, animal, coliform organisms in, 269
 Fat absorption during the consumption of diets rich in whole-grain and white breads, 194
 Fish, fresh-water, seasonal changes in bacterial flora of, 94
 Fish, toxicity of liquids containing cyanogen chloride to, 184
 Flooring materials, effect on thermal sensation and skin temperature of feet, 451
 Floors, warmth of, a physical study, 445
 Foals, haemolytic disease in newborn, 403
 Food-borne outbreak of streptococcal infection, 148
 Forecasting smallpox epidemics in India, 19
 Fresh-water fish, natural antibodies in blood serum of, 267
- Gastro-enteritis due to *Salmonella derby*, 151
 Gastro-enteritis, infantile, in Aberdeen, 1
 Grain, fumigated, retention of methallyl chloride and methyl bromide in, 431
 Guinea-pigs, breeding of, 434
- Haemagglutinin, vaccinia, studies on:
 I. Some physico-chemical properties, 42
 II. Some immunological properties, 49
 Haemolytic disease in newborn foals, 403
 Hepatitis, infective, among civilians in Palestine, 101
 Horse serum and antihorse serum, reaction between, 129
 Hospital cross-infection due to *Salmonella derby*, 158
 H₂S-negative strains of *Salmonella*, production of, 70
- India, forecasting smallpox epidemics in, 19
 Infective hepatitis in civilians in Palestine, 101
 Influenza virus, agglutination of red cells of animals by, 239
 Inhibitory action of esters on growth of *Mycobacterium tuberculosis*, 60
 Immunization, combined active and passive, against diphtheria, 34
 Inoculated persons, diagnostic value of the Widal test in, 98
 Iso-agglutination of pregnancy, haemolytic disease of foals due to, 403
- Labile antigens of *Shigella dysenteriae* Shiga, 65
 Laboratory animals, feeding and breeding of, 315, 434
 London, *Entamoeba histolytica* in wild rats caught in, 90
 Lysis, bacterial, and antiseptics, 62
 Lysogenic strains of staphylococci, significance of, 74, 82

- Malta, rat control in a plague outbreak in, 10
 Mauritius, *Brucella abortus* in cattle, 419
 Meat, survival of foot-and-mouth virus in, 394
 Melbourne water supply, coliform organisms in, 269
 Methallyl chloride:
 retention in fumigated grain, 431
 toxicity towards white rats, 217
 Methyl bromide:
 retention in fumigated grain, 431
 toxicity towards white rats, 217
 Mice, infectious ectromelia in, 383
 Middle East, typhoid fever in, 164
 Morbidity and climate, notes on, 311
 Mousepox, epizootic behaviour of, 383
 Mucoid envelopes in bacteria, 345
Mycobacterium tuberculosis, inhibitory action of esters on growth of, 60
- Newborn foals, haemolytic disease in, 403
 Newcastle disease virus, agglutination of red cells of animals by, 239
 Nuclear reorganization in non-sporing bacteria, 173
 Nucleus, bacterial, observations upon the, 264
- Offal, survival of foot-and-mouth virus in, 394
- Palestine, infective hepatitis among civilians in, 101
 Penicillin treatment in smallpox, 351
Pertussis-diphtheria, combined, prophylactic antigens, 117
 Plague outbreak in Malta, rat control in, 10
 Pneumococcus type incidence in Glasgow, 123
 Pregnancy, iso-immunization in foals, 403
 Pregnancy, wartime rationing and nutrition in, 325
- Rat control in a plague outbreak in Malta, 10
 Rationing, wartime, and nutrition in pregnancy, 325
 Rats, white, toxicity of methallyl chloride and methyl bromide towards, 217
 Rats, wild, in London, *Entamoeba histolytica* in, 90
 Red blood cells of animals, agglutination by influenza and Newcastle disease viruses, 239
 Rejuvenation in *Bacillus dysenteriae* Flexner, 331
- Relapsing fever spirochaetes, electron-microscope studies of, 438
- Salmonella derby*:
 cross-infection in hospital due to, 158
 gastro-enteritis due to, 151
Salmonella paratyphi B, temporary and chronic carriers of, 252
 Salmonella, production of H₂S-negative strains, 70
Salmonella typhi, temporary and chronic carriers of, 152
Shigella dysenteriae, labile antigens of, 65
 Smallpox in Tripolitania, 351
 Soil, longevity of coliform organisms in, 269
 Spirochaetes of relapsing fever, electron-microscope studies of, 438
- Staphylococci:
 lysogenic strains, origin and nature of, 74
 typing by bacteriophage, 74
Staphylococcus pyogenes, a study of serological type differentiation, 222
 Streptococcal infection, food-borne outbreak of, 148
 Submarine escape breathing air, 176
 Sulphonamides, determination of bacterial sensitivity to, 422
- Toxaemia of pregnancy, dietary and clinical survey with reference to, 198
 Tripolitania, smallpox in, during 1946, 351
 Type incidence of pneumococcus in Glasgow, 123
 Typhoid fever in the Middle East, 164
 Typing of staphylococci by bacteriophage, 74, 82
- Undulant fever in Mauritius, 419
- Vaccinia haemagglutinin, 42, 49
 Vaccinia virus, serological relationship to ectromelia virus, 378
 Vaginal smears, bacteriological interpretation of, 262
 Variation, adaptive, in *Bacillus dysenteriae* Flexner, 331
- Water supply of Melbourne, coliform organisms in, 269
 Widal test in inoculated persons, 98
