## Useful Adversaries

Grand Strategy, Domestic Mobilization, and Sino-American Conflict,  
1947–1958

Thomas J. Christensen

This book provides a new analysis of why relations between the United States and the Chinese Communists were so hostile in the first decade of the Cold War. Employing extensive documentation, it offers a fresh approach to long-debated questions such as why Truman refused to recognize the Chinese Communists, why the United States aided Chiang Kai-shek's KMT on Taiwan, why the Korean War escalated into a Sino-American conflict, and why Mao shelled islands in the Taiwan Straits in 1958, thus sparking a major crisis with the United States.

"Christensen has written a superb book based on extensive use of fresh Chinese sources. . . . This important book is a major contribution to the study of Sino-American relations."

Portraits in Chinese History

John E. Wills, Jr.

Through biographies of China's most colorful and famous personalities, John Wills displays the 5,000 year sweep of Chinese history from the legendary sage emperors to the tragedy of Tiananmen Square. This unique introduction to Chinese history and culture uses more than twenty exemplary lives to provide the focus for accounts of key historical trends and periods.

"[A] spirited and highly intelligent book. . . . A splendid reflection on the nature of the Chinese relationship to history, culture, and morality. . . . There is high drama, cruelty, and excess in many of these stories. . . . And there is also wit and charm mixed with the telling of great events."—Jonathan Spence, *The New York Times Book Review*

[A] vibrant portrayal of the living faith of a large portion of medieval China. . . . His transcendence of traditional boundaries between Buddhism and sinology have set a new standard for future studies of Chinese religion."
