

GENERAL NOTES

BRITISH MEDICAL ASSOCIATION.

THE Annual Meeting will be held in Dublin, when clinical and scientific work will be carried on in sixteen sections on July 26th-28th. A very complete programme of business, scientific, and social interest has been drawn up and full particulars can be obtained from the Medical Secretary, Tavistock House, Tavistock Square, W.C. The following is the provisional programme of the Section of Otolaryngology :—

OTO-RHINO-LARYNGOLOGY.

President : Sir Robert H. Woods, M.B., M.Ch., F.R.C.S.I., Dublin.

Vice-Presidents : P. J. Dempsey, F.R.C.S.I., Dublin ; P. J. Keogh, M.B., B.Ch., Dublin ; John F. O'Malley, F.R.C.S., London.

Honorary Secretaries : T. G. Wilson, M.B., F.R.C.S.I., 26 Upper Fitzwilliam Street, Dublin ; Philip J. Jory, D.S.O., M.B., F.R.C.S., 26 Queen Anne Street, W.I.

The following provisional programme has been arranged :—

Discussions : (1) The Treatment of Acute Otitis Media in Acute Febrile Conditions, to be opened by Mr. T. O. Graham (Dublin) ; (2) Granulomatous Conditions of the Nose, to be opened by Mr. P. J. Dempsey (Dublin) ; (3) The Treatment of Tuberculosis of the Larynx, to be opened by Mr. R. Scott Stevenson (London) ; (4) The Prognosis of Tuberculosis of the Larynx, to be opened by Dr. F. R. G. Heaf (London).

Paper : Mr. A. B. K. Watkins (Newcastle, N.S.W.), Plastic Surgery of the Face (with lantern slides). (During one of the sessions a film demonstration will be given by Mr. J. F. O'Malley (London) showing the treatment of tuberculosis of the larynx by means of the Kromayer lamp.)

* * *

The Fourth International Congress of Radiology will be held in Zürich on July 24th-31st, 1934. Among other subjects the Radiation Treatment of Malignant Tumours of the Mouth and Pharynx will be discussed.

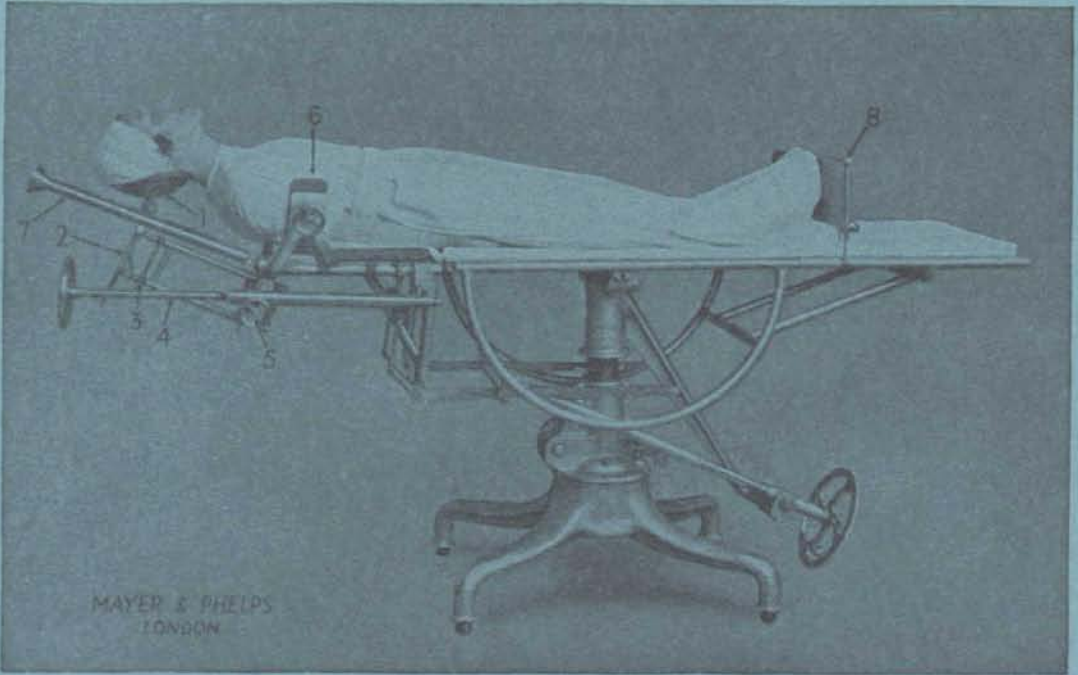

* * *

The Semon Lecture will be delivered by Professor Burger of Amsterdam on Thursday, November 2nd, at 5 o'clock at the Royal Society of Medicine. The subject is "The So-called Associated Paralyses of the Larynx and Pharynx." (Multiple Cranial Nerve Palsy.)

Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.B., B.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
