### BRITISH ASSOCIATION OF OTOLARYNGOLOGISTS

#### POLIOMYELITIS INOCULATION AND THE REMOVAL OF TONSILS AND ADENOIDS

The Council recommends that children should be inoculated against poliomyelitis before the removal of tonsils and adenoids. As a safeguard the ear, nose and throat specialist should ascertain from the parent whether the child has received its second inoculation.

It is appreciated that no direct pressure can be brought to bear on parents if they do not wish to have their child inoculated and they can only be warned of the possible risks.

### THE INSTITUTE OF LARYNGOLOGY AND OTOTOLOGY

330-332 GRAY'S INN ROAD, LONDON, W.C.1.

Professor F. C. Ormerod vacated the Chair of Laryngology and Otology in the University of London on the 30th September, 1959, and has been elected Professor Emeritus by the Senate. The University has not for the time being made a new appointment to the Chair.

Professor Ormerod has been appointed Director of Research at the Institute and in addition he will continue, in collaboration with the Dean, to be concerned with the organization and co-ordination of the teaching of students. The teaching arrangements generally will be carried on as at present.

The post of Reader in Otology has been advertised and will shortly be filled. It is hoped in the near future also to establish a Readership in Laryngology.

## POST-TONSILLECTOMY COMFORT

### Immediate pain relief—Speedier Convalescence

The pain of traumatized tissues following tonsillectomy, demands its own relief—and points the need for analgesia that quickly reaches the irritated area.

ASPERGUM provides 'salivary analgesia' through the simple act of chewing—it brings pain-relieving acetylsalicylic acid into *intimate* and *prolonged* contact with the tonsillar

region, seldom reached even intermittently by gargling. The rhythmic stimulation of muscular action also aids in relieving local spasticity & stiffness: more rapid tissue repair is promoted. Each pleasantly flavoured chewing gum tablet provides  $3\frac{1}{4}$  grains acetylsalicylic acid, permitting frequent use. Particularly suitable for children.
