## **Brazil in Transition** Beliefs, Leadership, and Institutional Change

Lee J. Alston, Marcus André Melo,  
Bernardo Mueller & Carlos Pereira

“Exploring Brazil’s stunning—if incomplete—economic progress of recent decades and the unexpected institutional shifts that underscored it, this book posits a new framework for understanding economic development in the modern era. Firmly grounded in history and sound scholarship, *Brazil in Transition* does an outstanding job delving into the Brazilian experience from 1964 to today.”

## **Becoming Black Political Subjects** Movements and Ethno-Racial Rights in Colombia and Brazil

Tianna S. Paschel

“In this book, Paschel offers nothing less than the most comprehensive and theoretically sophisticated account currently available of contemporary racial politics in Brazil and Columbia. Paschel’s direct, sustained, and multidimensional comparison of these two countries provides important and fascinating insights and informs our general understanding of the constraints and opportunities facing a growing number of ethno-racial movements across the region.”

### The Politics of Labour Reform in Latin American Countries

Leonardo Mello e Silva

This book offers a close look at the politics underlying labor market reforms, both proposed and enacted, with a special focus on the region’s largest economy, Brazil. ## After Human Rights

*Literature, Visual Arts, and Film in Latin America, 1990–2010*

by FERNANDO J. ROSENBERG

"Exceptionally well-conceived. I expect that this study will be widely read and influential for not only students and scholars of Latin American literature and culture but also for those working in adjacent research areas, including postcolonial studies, visual culture and art history, media studies, human rights, law, philosophy, and globalization studies."

## Slave Emancipation and Transformations in Brazilian Political Citizenship

CELSO THOMAS CASTILHO

"Castilho's focus on abolitionism and citizenship is new and valuable. He reveals a great deal about the understudied role of a part of the country that is often portrayed incorrectly as passive, as well as helping us understand the origins of 'urban radicalism' in the country as a whole."

## City on Fire

*Technology, Social Change, and the Hazards of Progress in Mexico City, 1860–1910*

by ANNA ROSE ALEXANDER

"This is not only the first book to focus on the role of fire in the modernization of Mexico City, it's also the best examination yet of the evolution of early fire protection anywhere in urban Latin America. Alexander skillfully integrates urban history with histories of science, technology, and the built environment."

## Modern Architecture in Mexico City

*History, Representation, and the Shaping of a Capital*

by KATHRYN E. O'ROURKE

"This book could not come at a better time. It will make a valuable contribution to our understanding of the importance of architectural history within the production of modern architecture in Mexico, and it will fill a noticeable lacuna in the English language historiography of modern architecture in Latin America."

—Luis E. Carranza, author of *Modern Architecture in Latin America: Art, Technology, and Utopia*
