MANAGERIAL POWER AND SOVIET POLITICS

By JEREMY R. AZRAEL

The conclusions reached in this empirical examination of the Russian industrial scene raise serious doubts about the degree to which the Soviet managerial elite has played, or is likely to play, the role of a vanguard in promoting political change. The book suggests the need for revision of widely held theoretical assumptions. *Russian Research Center Studies*, 52. \$4.95

POLAND'S POLITICS

Idealism versus Realism

By ADAM BROMKE

The traditional antinomy between idealism and realism in Polish politics is defined and extended by the author to place the program and policies of the Communist party and other indigenous political movements in a broad historical perspective and to illuminate contemporary Polish political developments. *Russian Research Center Studies*, 51. \$9.95
