

Parasitology

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2015 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in Parasitology may be obtained from the publisher.

Online submission. Authors are encouraged to submit their manuscripts online. Go to <http://mc.manuscriptcentral.com/par/> to open an author's account for Parasitology. Manuscript Central is helping to improve the speed of the publication process for the journal.

PARASITOLOGY

CONTENTS

PREFACE

The evolution of parasite genomes and the origins of parasitism

Andrew P. Jackson

S1

Evolution of parasitism along convergent lines: from ecology to genomics

Robert Poulin and Haseeb S. Randhawa

S6

The origins of malaria: there are more things in heaven and earth...

P. J. Keeling and J. C. Rayner

S16

The evolution of parasitism in Nematoda

Mark Blaxter and Georgios Koutsovoulos

S26

Genome evolution in trypanosomatid parasites

Andrew P. Jackson

S40

Large, rapidly evolving gene families are at the forefront of host-parasite interactions in *Apicomplexa*

Adam J Reid

S57

Signatures of adaptation to plant parasitism in nematode genomes

David McK. Bird, John T. Jones, Charles H. Opperman, Taisei Kikuchi and Etienne G.J. Danchin

S71

What helminth genomes have taught us about parasite evolution

Magdalena Zarowiecki and Matt Berriman

S85

Recurrent bottlenecks in the malaria life cycle obscure signals of positive selection

Hsiao-Han Chang and Daniel L. Hartl

S98

A co-evolutionary arms race: trypanosomes shaping the human genome, humans shaping the trypanosome genome

Paul Capewell, Anneli Cooper, Caroline Lucas, William Weir and Annette Macleod

S108

Sexual reproduction and genetic exchange in parasitic protists

Gareth D. Weedall and Neil Hall

S120
