Dental Anatomy and Physiology, and Member of the Board of Dental Studies in the University of London; Staff-Demonstrator of Practical Dentistry, Guy's Hospital; Dental Surgeon, N.E. Hospital for Children and Throat Hospital, London.

Dr Pare, who was the author of a number of papers on dental science, was elected a Fellow of this Society in 1914.

SQUANCE, THOMAS COKE, M.D., F.R.M.S., Knight of Grace, Order of St John of Jerusalem (Major, R.A.M.C.), who received his medical training at the University of Durham and St Thomas's Hospital, was a Consulting Physician in the Royal Infirmary, Sunderland, and in the Monkwearmouth and Southwick Hospital. He was Medical Officer of Health for Sunderland, R.D.C.; Surgeon, Sunderland Hospital for Women and Children; Physician and Lecturer, Hygiene and Public Health to the Nursing Staff of the Royal Infirmary, Sunderland; and a past President of the Sunderland Antiquarian Society and the Naturalists' Association. Dr Squance was the author of medical papers in *Transactions Sunderland and North Durham Medical Society*, 1885-86; *Knight's Poor Law Reports*, 1889; and *The Lancet*, 1902.

He was elected a Fellow of this Society in 1906, and died on 29th May 1923, in his seventy-second year.

THOMSON, WILLIAM, F.I.C., F.C.S., was born in Glasgow in 1851, came to Manchester in 1869, and entered, as assistant to Dr Crace-Calvert, the Royal Institution Laboratory, Princess Street. At the age of twenty-two he became a partner in the firm of Crace-Calvert & Thomson, and later took sole charge of the practice, combining with it the office of Public Analyst for Stockport.

Mr Thomson joined the Manchester Literary and Philosophical Society in 1873, served on its Council for many years, and was President from 1917–19. Many of his papers on varied subjects were contributed to this Society. As recently as November last he presented to it the actual tubes, containing sulphides of calcium, barium, etc., which he demonstrated to Sir William Crookes in 1877 and which proved to be the first of three steps which led to the discovery of X-rays by Röntgen.

He was one of the original members of the Society of Chemical Industry, a leading force in the Institute of Chemistry, a member of the Executive Committee of the Air Pollution Advisory Board (Manchester Corporation), and a past President of the Caledonian Association.

## 288 Proceedings of the Royal Society of Edinburgh. [Sess.

His book on *The Sizing of Cotton Goods* went through two editions, of which the first was published in 1877 and the second in 1879.

Mr Thomson was elected a Fellow of this Society in 1876, and died suddenly in his laboratory on 4th October 1923.

WILL, JOHN CHARLES OGILVIE, M.D., J.P., graduated M.B., C.M. (Aberdeen and Edinburgh) in 1866, and M.D. (Aberdeen) in 1868. He was Consulting Surgeon to the Royal Infirmary, Aberdeen, and to the Great North of Scotland Railway Co.; Surgeon, Aberdeen Prison; Medical Referee, National Amalgamated Approved Society; Fellow of the Edinburgh Obstetrical Society; late Examiner in Surgery and Materia Medica in the University of Aberdeen; Surgeon and Lecturer in Clinical Surgery, Aberdeen Royal Infirmary; and a Medical Referee under the Workmen's Compensation Act. He was the author of papers on medical subjects in the Edinburgh Medical Journal, British Medical Journal, and The Lancet.

Dr Will was elected a Fellow of this Society in 1879, and died on 29th June 1922.

WOOD, THOMAS, M.D., a native of Lindores, Fife, graduated M.B., C.M., at Edinburgh University in 1883, and received the degree of M.D. in 1904. He was a well-known general practitioner in Leith, a Fellow of the Obstetrical Society, a member of the Royal Sanitary Institute, and accomplished much useful public work while a member of Leith School Board from 1894–1909, especially as the Convener of the School Building and Repairs Committee.

Dr Wood was the author of papers in the Obstetrical Transactions, Journal of the Royal Sanitary Institute, and the Journal of Scientific Physical Training, and read a paper in 1907 to the Second International Congress of School Hygiene.

He was elected a Fellow of this Society in 1908, and died at Lisbon on 24th January 1923, on his way to the Canary Islands.
