

	PAGE
Passage of food in the young suckling pig. By D. E. KIDDER and M. J. MANNERS	46A
Nucleic acids in bovine nutrition. 1. Determination in digesta and the fate of ingested nucleic acids in the rumen. By A. B. McALLAN and R. H. SMITH	47A
Nucleic acids in bovine nutrition. 2. Production of microbial nucleic acids in the rumen. By R. H. SMITH, A. B. McALLAN and W. B. HILL	48A
The digestion of energy and starch along the gastro-intestinal tract of sheep. By J. D. SUTTON and J. W. G. NICHOLSON	49A
Milk consumption in the elderly. By A. E. BENDER and LOUISE DAVIES	50A
<i>Two Hundredth Scientific Meeting</i>	
Suggested new nutritional energy units. By J. W. LUCAS and F. WOKES	51A
The performance of laying hens on diets supplemented with non-protein nitrogen. By F. O. AKINTUNDE, R. H. DAVIS and A. H. SYKES	52A
Some effects of nitrogen and water intake in sheep and red deer. By G. M. O. MALOY, R. N. B. KAY, E. D. GOODALL and J. H. TOPPS	52A
Urinary excretion of nitrogenous compounds by sheep and red deer. By J. H. TOPPS, E. D. GOODALL, R. N. B. KAY and G. M. O. MALOY	53A
Selection of zinc-containing and protein-free diets by zinc-deficient rats. By W. R. HUMPHRIES and J. QUARTERMAN	54A
The uptake of ⁶⁴ Cu in the brain and other tissues of the rat. By A. D. RYAN and P. J. WARREN	55A
Development of anaemia in protein-calorie deficiency. By SHAFIKA S. NASSER and B. S. PLATT	56A
Daily occult loss and faecal iron excretion. By SHAFIKA S. NASSER and I. McLEAN BAIRD	57A
Effect of the antecedent diet on the rate of metabolism of alcohol (ethanol) in man. By G. L. S. PAWAN	58A
The use of an open circuit calorimeter for the determination of the specific dynamic action (SDA) of a diet. By ANTHEA J. PORTER-SMITH and D. H. SHRIMPTON	59A
Effects of UHT-processing and of subsequent storage on the vitamin content of milk. By J. E. FORD, J. W. G. PORTER, S. Y. THOMPSON, J. TOOTHILL and J. EDWARDS-WEBB	60A
The effect of lysine infusion on the renal resorption of arginine in the cockerel. By K. N. BOORMAN, I. R. FALCONER and D. LEWIS	61A
Acidulated sunflower-oil soapstocks as fat supplements in broiler rations. By R. BIEDERMANN, J. HOBY, A. L. PRABUCKI and A. SCHURCH	62A
The estimation of body fat in young men using skinfold calipers and a transportable underwater weighing apparatus. By M. F. HAISMAN	63A

FORTHCOMING ISSUE

It is hoped to publish in the next issue of the *Proceedings of The Nutrition Society* reports of symposia on Nutrition of the Foetus and the Newly Born (12-13 July 1968) and New Sources of Food Protein (26 October 1968), the First Drummond Memorial Lecture on Assessment of Nutritional Status in Protein-malnourished Children by Dr R. G. Whitehead (21 June 1968) and abstracts of communications to be presented at meetings on 27 September and 5 December 1968.

Proceedings of the Nutrition Society

CONTENTS OF VOL. 27, No. 2, SEPTEMBER 1968

SYMPOSIUM PROCEEDINGS

One Hundred and Ninety-fifth Scientific Meeting

KEEPING UP TO DATE IN NUTRITION

	PAGE
The control and communication of information. By HERBERT COBLANS	113
Abstracts and reviews as means of conveying information. By E. J. MANN	114
The sterility of modern science. By K. MELLANBY	115
Human nutrition; the information requirements of a Government department. By P. E. MARTIN	116
Problems of the nutritionist in obtaining information. By BEE NILSON	117
The dissemination of misinformation: a growing problem. By John MCKENZIE	117
Keeping up to date in nutrition: Chairman's summary of the discussion. By S. K. KON	118

One Hundred and Ninety-eighth Scientific Meeting

COMPARATIVE NUTRITION

Chairman's opening remarks. By K. L. BLAXTER	120
Comparative nutrition, growth and longevity. By ELIZABETH EVANS and D. S. MILLER	121
Comparative nutrition in pregnancy and lactation. By P. R. PAYNE and ERICA F. WHEELER	129
Minerals in the animal body. By ELSIE M. WIDDOWSON	138
Requirements of different species for vitamins. By M. E. COATES	143
Biochemical aspects of comparative nutrition. By D. C. WALES	149
Food selection under natural conditions and the possible relationship to heart disease in man. By M. A. CRAWFORD	163
Methods of studying the food habits of some wild ungulates in Uganda. By C. R. FIELD	172
Application of findings of research in animal nutrition to man. By W. F. J. CUTHBERTSON	177

One Hundred and Ninety-ninth Scientific Meeting

NUTRITIONAL PROBLEMS OF THE ELDERLY

Unanswered questions in the nutrition of elderly people. By W. F. ANDERSON	185
Energy—requirements, intake and balance. By J. V. G. A. DURNIN	188
Protein status of the elderly. By W. T. C. BERRY	191
Aspects of malnutrition in the elderly. By J. ANDREWS	196
Mineral metabolism in relation to ageing. By D. A. SMITH, I. HARRISON, B. E. C. NORDIN, J. MACGREGOR and M. JORDAN	201

ABSTRACTS OF COMMUNICATIONS

One Hundred and Ninety-sixth Scientific Meeting

Some comparisons of performance of lambs with and without rumen ciliate protozoa. By MARGARET I. CHALMERS, J. DAVIDSON, J. MARGARET EADIE and J. C. GILL	29A
Component fatty acids of plasma lipids of lambs with and without rumen ciliate protozoa. By A. K. LOUGH	30A
Effect of copper intake on copper metabolism in rats. By N. F. SUTTLE, B. S. W. SMITH and A. C. FIELD	31A
The effects of pyridoxine deficiency on the liver lipids of the chick. By J. H. MOORE, M. E. COATES and D. L. WILLIAMS	32A
Abnormal changes in the volume of the rumen contents of sheep given molassed sugar-beet pulp. By J. W. CZERKAWSKI and D. R. PATERSON	33A
Sodium requirement of the fowl at the onset of lay. By R. S. ANDERSON	34A
Restricted and <i>ad lib.</i> feeding of dairy cows on diets differing in crude fibre and metabolizable energy contents. By S. AMIR, J. N. AITKEN and M. KAY	35A
The protein requirements of early-weaned calves. By M. KAY and N. A. MACLEOD	36A
Dietary factors influencing starch disappearance in various parts of the alimentary tract and caecal fermentation in early-weaned lambs. By E. R. ORSKOV and C. FRASER	37A
The influence of level of dietary phosphorus on the effect of manganese on shell formation. By MARGARET LONGSTAFF and R. HILL	38A
Skeletal manganese in pullets given diets of different Mn content. By R. HILL and J. W. MATHERS	39A
Metabolism of riboflavin in goats with a caecal fistula. By D. W. WEST and E. C. OWEN	39A

One Hundred and Ninety-seventh Scientific Meeting

Energy metabolism of young rats fed different levels of protein and/or calories. 1. The partition of the metabolizable energy intake of pair-gained and pair-fed litter-mates. By K. J. MCCracken	40A
Energy metabolism of young rats fed different levels of protein and/or calories. 2. Energy metabolism of rats tube-fed eucaloric amounts of complete or low-protein diets. By K. J. MCCracken	41A
Dental plaque formation on a chocolate diet. By T. H. GRENBY	42A
The effect of undernutrition on the growth and maturation of the skeleton of the rat. By J. W. T. DICKERSON and P. C. R. HUGHES	43A
Some effects of dietary sucrose on the metabolism of liver and adipose tissue. By A. E. BENDER and P. V. THADANI	44A
Serum fructose levels in men and women after sucrose and after fructose with glucose. By I. MACDONALD and L. J. TURNER	45A
The effect of 250 ppm of copper in the diet of growing pigs on the fatty acid composition of the adipose tissue lipids. By J. H. MOORE, W. W. CHRISTIE, R. BRAUDE and K. J. MITCHELL	45A
