

THERE IS ROOM AT YOUR DESK FOR ANOTHER PROFESSIONAL.

The Hewlett Packard personal computer!

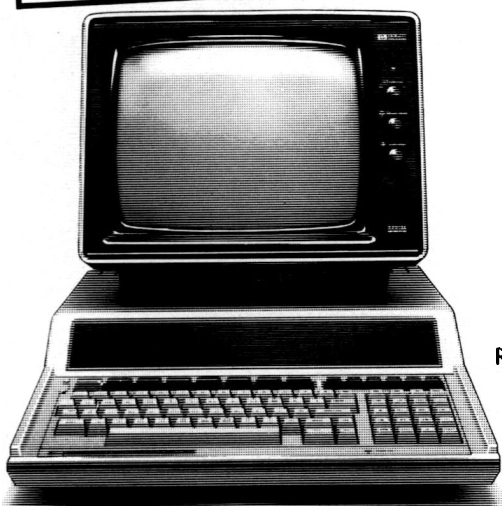

Designed to work alongside the scientist and engineering professional and now available from the company you know can give the in depth support you deserve: Rapid Recall - Britain's leading microcomputer distributor.

Probe them about the right machine for your application... from the portable 75C, through the

86, 87 up to the new 32/16 bit 9816. Check with them about off-the-shelf analytical and business software. Ask them about new peripherals such as the 7470 A4 plotter and the 9121D 3 1/2" disk drive. Double check on upgradability and compatibility. Then diary a date for a professional-to-professional demonstration right at your desk.

Rapid Recall . . . the HP source.

WE'LL PROVE IT!

**hp HEWLETT
PACKARD**

Rapid Recall (Southern) Limited
Rapid House Denmark Street High Wycombe Bucks.
Telephone: (0494) 26271 Telex 837931.

Rapid Recall (Northern)
28 High Street Nantwich Cheshire
Telephone: (0270) 627505 Telex 36329.

- The thermal self-focusing of a wave beam in an underdense plasma. Part 1. The wave spectrum
M. J. GILES 325
- Corrigendum: Nonlinear equilibrium and stability analysis of rippled, partially neutralized, magnetically focused electron beams
S. CUPERMAN AND F. PETRAN 359

JOURNAL OF PLASMA PHYSICS

Volume 29 Part 2 April 1983

CONTENTS

Electrostatic modes in a magnetized plasma with a longitudinal density gradient	
J. E. MAGGS AND G. J. MORALES	<i>page</i> 177
On reflexion and trapping of upper-hybrid waves	
E. MJØLHUS	195
Whistler-mode propagation at frequencies near the electron gyrofrequency	
S. S. SAZHIN	217
Magnetosonic wave propagation in the mode conversion regime	
Y. LAPIERRE	223
The effect of microscale random Alfvén waves on the propagation of large-scale Alfvén waves	
T. NAMIKAWA AND H. HAMABATA	243
Nonlinear interaction of waves in sharply bounded plasmas	
T. LINDGREN	255
Notes on the stability problem for inhomogeneous equilibria	
K. R. SYMON	275
Stability of an astrophysical plasma near the onset of electron runaway	
J. S. KAASTRA	287
Electrical conductivity for radio-frequency fields in strongly magnetized plasmas with density fluctuations	
Y. S. SAYASOV AND C. P. RITZ	299
Distortion of the distribution function of weakly RF heated minority ions in a tokamak plasma	
D. ANDERSON	317
