

## ERRATUM

*J. Hygiene*, **57**, 435, Contamination of Bathing Beaches, Table 3, p. 448.  
The Beach (code letter) in the second line to read **J** *not* I.

**Erwinia Chrysanthemi:**  
A plant pathogen causing Stem  
Rot in Chrysanthemums and  
Soft Rot in fleshy vegetables

a  
cure  
for  
chrysanthemums

When your business is selling Chrysanthemums, Stem Rot can be disastrous. Faced with this menace a certain large firm of growers turned to us. The problem was to isolate infected cuttings early enough to prevent cross infection in the Nursery.

Now, in this one business alone upwards of a million cuttings a year are being laboratory tested in Oxoid Culture Media before rooting, to eradicate infected stock.

FOR PROGRESSIVE LABORATORIES

CULTURE MEDIA

**The use of Oxoid Culture Media ensures constant quality and uniformity in your laboratory technique. Absolutely reliable, quick, convenient and economical, Oxoid Culture Media are available in tablet or granular form. Full details from:**

**OXOID DIVISION OF OXO LTD., Thames House,  
Queen Street Place, London, E.C.4 (CENTRAL 9781)**

# The Journal of General Microbiology

Editors: B. C. J. G. KNIGHT and A. F. B. STANDFAST

Vol. 22, No. 2

Contents

April 1960

- BERENBAUM, M. C., UNGAR, J. and STEVENS, W. K. Intracranial infection of mice with *Bordetella pertussis*.
- HARTMAN, P. E., LOPER, J. C. and SERMAN, D. Fine structure mapping by complete transduction between histidine-requiring *Salmonella* mutants.
- HARTMAN, P. E., HARTMAN, Z. and SERMAN, D. Complementation-mapping by abortive transduction of histidine-requiring *Salmonella* mutants.
- AMES, B. N., GARRY, B. and HERZENBERG, L. A. The genetic control of the enzymes of histidine biosynthesis in *Salmonella typhimurium*.
- BRADISH, C. J., HENDERSON, W. M. and KIRKHAM, J. B. Studies on the virus system of foot and mouth disease: separation of components and electron microscopy of the characteristic particle.
- BRADISH, C. J., BROOKSBY, J. B. and TSUBAHARA, H. Studies of components of the virus system of foot and mouth disease and its antibodies.
- BRADISH, C. J. and BROOKSBY, J. B. The specificity of the interactions between components of the virus system of foot and mouth disease and its antibodies.
- FULTON, F. Tissue culture on polythene.
- COLEMAN, G. S. A sulphate-reducing bacterium from the sheep rumen.
- GORRILL, R. H. and MCNEIL, E. The effect of cold diluent on the viable count of *Pseudomonas pyocyanea*.
- REES, R. J. W., VALENTINE, R. C. and WONG, P. C. Application of quantitative electron microscopy to the study of *Mycobacterium lepraemurium* and *M. leprae*.
- BAIRD-PARKER, A. C. The classification of Fusobacteria from the human mouth.
- BUTLER, M. and KNIGHT, B. C. J. G. The survival of washed suspensions of mycoplasma.
- BUTLER, M. and KNIGHT, B. C. J. G. The measurement of the growth of mycoplasma in liquid media.
- BUTLER, M. and KNIGHT, B. C. J. G. Steroid growth requirements and steroid growth inhibitors of mycoplasma.
- RAZIN, S. and KNIGHT, B. C. J. G. A partially defined medium for the growth of mycoplasma.
- RAZIN, S. and KNIGHT, B. C. J. G. The effects of ribonucleic acid and deoxyribonucleic acid on the growth of mycoplasma.
- HARADA, T. and SPENCER, B. Choline sulphate in fungi.
- ETC., ETC.
