University of Oxford, UK

An international journal for the publication of papers concerning research into human population biology, reporting investigations on the nature, development and causes of human variation, embracing the disciplines of:

- ◆ human genetics
- ◆ auxology
- ◆ environmental physiology
- ◆ ecology
- ◆ epidemiology
- ◆ ageing

Readership

Human biologists, epidemiologists, auxologists, paediatricians, population geneticists, physical anthropologists, gerontologists, physiologists and public health workers.

Subscription Information

Volume 21 (1994), Bimonthly, ISSN 0301-4460
Institutional: US\$355 / £211

T & F Journals of Related Interest

Educational Gerontology, Ergonomics, Ergonomics Abstracts, Health Care for Women International, Issues in Comprehensive Pediatric Nursing, Sociological Spectrum.
