

**Copying.** This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/92 \$5.00 + .00.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

The **Proceedings of the Nutrition Society**, published by the Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The contributions will be published *in extenso*; such summaries of the ensuing discussions as circumstances warrant may also be published. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription to the *Proceedings* is £103.00 net (US \$204.00 in USA and Canada). Single issues are £36.00 (US \$71.00 in the USA and Canada) each; postage extra.

# The British Journal of Nutrition

VOL. 67 NO. 3 MAY 1992

## CONTENTS

**Editorial**

- The ethics of peer review. *D. A. T. Southgate* 303

**Effects of Diet on Food Intake of Cattle**

- Studies of method of conserving grass herbage and frequency of feeding in cattle.  
 1. Voluntary feed intake, digestion and rate of passage. *L. R. L. Thiago, M. Gill and M. S. Dhanoa* 305–318  
 Studies of method of conserving grass herbage and frequency of feeding in cattle.  
 2. Eating behaviour, rumen motility and rumen fill. *L. R. L. Thiago, M. Gill and J. Sissons* 319–336

**Energy Metabolism**

- The effect of the  $\alpha_2$ -adrenergic agonist, guanfacin, on the energy metabolism of steers fed on low-quality-roughage diets. *R. A. Hunter* 337–343

**Metabolic Effects of Diet**

- Effects of diet, level of intake, sodium bicarbonate and monensin on urinary allantoin excretion in sheep. *R. J. Dewhurst and A. J. F. Webster* 345–353  
 The effect of forage and forage-concentrate diets on rumen fermentation and metabolism of nutrients by the mesenteric- and portal-drained viscera in growing steers. *C. J. Seal, D. S. Parker and P. J. Avery* 355–370  
 Influence of the amount of starch on the glycaemic index to rice in non-insulin-dependent diabetic subjects. *O. Rasmussen, S. Gregersen and K. Hermansen* 371–377  
 Influence of amount of dietary fat and protein on esterase-1 (ES-1) activities of plasma and small intestine in rats. *H. A. Van Lith, G. W. Meijer, M. J. A. Van der Wouw, M. Den Bieman, G. Van Tintelen, L. F. M. Van Zutphen and A. C. Beynen* 379–390

**Amino Acid Metabolism**

- Muscle protein degradation assessed by N<sup>1</sup>-methylhistidine excretion in mature White Leghorn, dwarf broiler and normal broiler males maintained on either low- or high-protein diets. *P. M. Hocking and C. Linda Saunderson* 391–399  
 The availability of lysine in diets for pigs: comparative methodology. *Jane Leibholz* 401–410

**Absorption of Inorganic Nutrients**

- Zinc absorption in adult men from a chicken sandwich made with white or wholemeal bread, measured by a double-label stable-isotope technique. *Susan J. Fairweather-Tait, Thomas E. Fox, S. Gabrielle Wharf, John Eagles and Hugh Kennedy* 411–419
