“An important contribution to our understanding of the origins of the cold war in Asia . . .

indispensable to all who seek to understand the more recent chapters in the historic struggle between the two superpowers.”

— *The New York Times Book Review*

Schaller argues that the reconstruction of postwar Japan not only shaped the future of that country but the future of U.S. policy throughout postwar Asia, leading up to the controversial interventions in China, Korea, and Vietnam.

The author shows how after the war, the United States sought to develop Japan as a stable bulwark against both Soviet expansion and Asian revolution. Schaller depicts the intense contest that raged among Americans, pitting the flamboyant Occupation Commander, General Douglas MacArthur, against virtually all civilian and military planners in Washington, including the president. First hailed as a hero and given nearly free reign to shape Japan's future, MacArthur was ultimately denounced by Truman and his advisors as a “bunko artist” who had wrecked Japan's economy and opened it to Communist influence. In place of MacArthur's ambitious social and economic reforms, the new Occupation program re-concentrated power in the hands of Japan's old elite. The book shows how Communist control of China and North Korea cut Japan off from its historic trading partners and

forced officials to focus on developing the rich but unstable Southeast Asian states. Washington feared that economic blackmail alone would pull Japan into the Soviet orbit. Determined to secure Japan—the ultimate “domino”—the United States spurned possible détente with China, extended military aid to the French in Indochina, and finally entered the Korean War.

THE CHINESE RECORDER INDEX

A Guide to Christian Missions
in Asia, 1867-1941

Compiled by Kathleen L. Lodwick
Southwest Missouri State University

The *Chinese Recorder*, a journal published by the Protestant missionary community in China throughout the heyday of mission work in that country, is a key English-language source for studying the impact of Christianity on China and on Sino-Western relations. It is also invaluable for research on the history of missions and missionaries in Asia during the 19th and 20th centuries. Kathleen L. Lodwick's **Index**—the first ever produced for this long-running journal—makes an enormous amount of information on all these topics readily available. Separate indexes by name, mission/organization, and subject are included.

Japan in Transition

From Tokugawa to Meiji

Edited by *Marius B. Jansen* and *Gilbert Rozman*

In this book social scientists scrutinize the middle decades of the nineteenth century in Japan. That scrutiny is important and overdue, for the period from the 1850s to the 1880s has usually been treated in terms of politics and foreign relations. Yet those decades were also of pivotal importance in Japan's institutional modernization. As the Japanese entered the world order, they experienced a massive introduction of Western-style organizations. Sweeping reforms, without the class violence or the utopian appeal of revolution, created the foundation for a modern society. The Meiji Restoration introduced a political transformation, but these chapters address the more gradual social transition. Illustrated. \$47.50

Han Yü and the T'ang Search for Unity

Charles Hartman

This work is the first comprehensive study in a Western language of Han Yü (768–824), a principal figure in the history of the Chinese Confucian tradition. The book begins with a detailed biography that fixes Han Yü's place in the political and intellectual life of the T'ang (618–907). Charles Hartman presents new evidence to support the affinity, first suggested by the great historian Ch'en Yin-k'o (1890–1969), between Han Yü's incipient Neo-Confucianism and the Ch'an School of Buddhism. Offering an integral view of this complex man, subsequent chapters focus on Han Yü's achievements as a practicing politician, as a Confucian theorist, and as a man of letters. \$50.00

The King and the Clown in South Indian Myth and Poetry

David Dean Shulman

This book offers a new interpretation of medieval South Indian society, and, in particular, the political order, as seen in literary images in Tamil, Telugu, and Sanskrit texts. These images suggest the spiritual and social dynamics of South Indian kingship: the king must undergo experiences of exile, masquerade, and possession by a clownlike anti-self, all these transformations being integral components of his role. As in Shakespeare and Rabelais, the king is closely connected to various comic figures, but this association follows distinctly Indian patterns that present important contrasts with Western notions of kinship and the state. In a richly evocative account based on two years of fieldwork in rural Malaysia, Scott presents a sensitive picture of the constant and circumspect struggle waged by peasants against their oppressors. His work represents "a major contribution to peasant studies, Malaysian studies, and the literature on revolutions and class consciousness." (Benedict R. Anderson) \$35.00

The Pacific Century

Economic and Political Consequences of Asian-Pacific Dynamism

Staffan Burenstam Linder. Spectacular economic growth in the Pacific Basin is forcing a shift in the world's political and economic center of gravity, a shift away from the Atlantic to the Asian-Pacific region. This book is designed to give the general reader a firm grasp of the new Pacific dynamism and to clarify its impact on the global marketplace. The author first describes the factors that have produced the phenomenon—huge increases in production, international trade, and overall economic achievement. He then speculates on the consequences of the shift to Pacific primacy: how it will influence political and economic strategies in other sectors, encourage new economic partnerships, and pose a threat to certain national economies. Warning that protectionism is not the answer to the threat, the author concludes by showing how non-Pacific nations can use Pacific growth to their benefit. Cloth, \$18.95; paper, \$7.95

The Bakufu in Japanese History

Edited by Jeffrey P. Mass and William B. Hauser. For more than half its history Japan has been ruled, at least in part, by warriors. During most of this time Japan's form of government was the Bakufu (or shogunate): the Kamakura (1185-1333), the Muromachi (1336-1573), and the Tokugawa (1603-1867). Each Bakufu reflected the power realities of the warrior class of its own age, but each used institutional forms that had been adapted from the past or were capable of being adapted for the future. These continuities, consciously promoted, served an important stabilizing purpose. The eight papers in this volume describe and analyze the curious phenomenon of this recurring form of military government, and represent the first attempt in English to understand Japan's experience with shogunates as one of the key themes of its history. \$34.00

"An instant classic of military history."—CHALMERS JOHNSON

Japan Against Russia, 1939

Alvin D. Coox. This monumental two-volume work is the first in any language to describe fully the fierce undeclared war fought by Japan and the Soviet Union on the Manchurian border in 1939. Both sides committed tens of thousands of troops and hundreds of tanks and airplanes. As an opportunity to test new kinds of military armaments and strategies, this little-known war was the Spanish Civil War of East Asia. In the end, the Soviet army under General (later Marshal) Zhukov won a decisive victory, and the repercussions were enormous: Japan turned its attention toward easier targets in Southeast Asia and the Pacific, inevitably leading to Pearl Harbor, and Russia never again had to face a serious threat of war on two fronts. Based on 30 years of research and hundreds of interviews, this work also provides the Japanese background to the war and a complete history of the Kwantung Army. Illustrated with 88 photographs, 8 maps, and endpaper maps. The set, \$95.00

P'eng Te-huai

The Man and the Image

Jürgen Domes. In 1978 the Chinese Communist Party posthumously rehabilitated Marshal P'eng Te-huai—veteran of the Long March, leader of China's forces in the Korean War, and Minister of Defense from 1954 to 1959. An outspoken critic of Mao's development policies, P'eng was branded a "traitor" during the Cultural Revolution and sent to prison, where he remained until shortly before his death in 1974. P'eng has subsequently been rehabilitated and is now considered an important contributor to the cause of Chinese communism. This study reconstructs P'eng's biography within the framework of political and socioeconomic developments in China, and uses P'eng's life and career as a means of investigating the typology of intra-party conflict in the CCP, the evolution of anti-Maoist doctrine, and the ways in which personal images are manipulated in the People's Republic of China. \$25.00

Samurai and Silk

A Japanese and American Heritage

Haru Matsukata Reischauer

Only Haru Reischauer could have written this book – an enchanting dual biography of her illustrious grandfathers. One was a provincial samurai who became a founding father of the Meiji government, the other a wealthy peasant who almost singlehandedly developed the silk trade with America and spent most of his life in New York. This is a book to be enjoyed, on one level, as the life story of two energetic achievers that also offers insight into Japanese customs and mores in a period of profound transition. Beautifully illustrated with photographs from the author's personal collection.
