Three Important New Harper Textbooks in Political Science

AMERICAN POLITICS

A STUDY IN POLITICAL DYNAMICS

SECOND EDITION

By PETER H. ODEGARD and E. ALLEN HELMS

The enthusiasm which is bound to greet the new and up-to-date edition of the lively and vigorous *American Politics* is indicated by the fact that although examination copies are being shipped as this is written, *some forty colleges and universities have already adopted it, sight unseen*, with more orders arriving every day. These include Columbia University, Duke University, Princeton University, Smith College, the University of California, the University of Kansas, etc. \$4.50.

CITY GOVERNMENT IN THE UNITED STATES

REVISED EDITION

By CHARLES M. KNEIER

Just published, this is a complete revision of an important text, bringing the material up through the critical war years and post-war problems, with new material on administrative organization, personnel administration, and municipal expenditures, revenues, and debts. This is certain to be the leading college textbook in this important field. \$4.50.

THE UNITED STATES IN WORLD AFFAIRS, 1945-1947

By JOHN C. CAMPBELL and the Research Staff of the
Council on Foreign Relations

This is easily the most important volume to be published in this distinguished series (which has been suspended since 1940). It covers the main lines of our foreign policy during the crucial period from the end of the war to the spring of 1947. A scholarly, impartial, and authoritative volume, just off the press. \$3.75.

*A study of
government in action*

SHOUP The Government of The American People

An outstanding book on constitutional government which emphasizes the relation of the government to the citizens and the unity given our government by the American people.

The first part deals with foundations; fundamental laws in national and state governments and local government charters; popular controls and the processes of lawmaking. The

second part presents the administrative system.

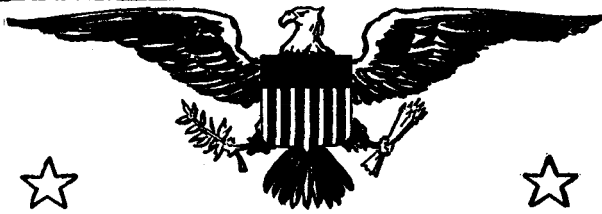

Interesting chapters on the functions of the metropolitan government, on the nominations for elective offices and the elective systems, on state constitutions, and the character of political parties.

“Massive, impressive, and thorough, and it is written with chaste and refreshing clarity.”

GINN and COMPANY

Boston 17 New York 11

Chicago 16 Atlanta 3 Dallas 1 Columbus 16 San Francisco 5 Toronto 5

SHOUP The National Government of the American People

A new book that stresses the dynamics of government

A new book that considers national government from the functional point of view. The emphasis is placed throughout on government as an acting force. The underlying principles of the American system of government and their expression in the national constitution are studied as a basis for understanding democratic procedures.

Detailed analysis of the methods of framing the constitution, of the extent of presidential powers, of the methods of legislation. The domestic and international activities of the government are clarified.

Other notable features of this comprehensive book: excellent chapters on the electoral system, the political character of the American people, the duties of the student as a citizen; careful analysis of major problems of today—government and labor relations, national finance, foreign relations, the diplomatic and military implications of the atomic bomb; judicial review of legislation; the federal civil service.

The National Government of the American People is a scholarly book that is highly readable and teachable.

Chicago 16 Atlanta 3 Dallas 1 Columbus 16 San Francisco 5 Toronto 5

**THE GOVERNMENT
OF THE
UNITED STATES**

Fifth Edition

By WILLIAM B. MUNRO

The thorough revision of this standard text carries the story of the American political system through the Second World War, identifies the impact of the war on that system, and considers some of the policies and problems of the early postwar conversion period. Professor Munro continues to achieve a happy balance between description and critical evaluation of events, processes, and policies, and throughout the text he makes the student aware of the fact that government is a human contrivance, and that its standards of achievement and operation can never rise above the moral and intellectual level of the personalities who influence it.

\$4.50

**GOVERNMENT AND
POLITICS IN THE
UNITED STATES**

Revised Edition

By HAROLD ZINK

Taking into account the numerous changes that have taken place since the first edition of this text was published in 1942, this revision emphasizes the democratic process as it relates to the problems of the postwar period, rather than the struggle of democracy to survive the attacks of the dictatorships. New topics, such as the UN, military government, the CIO Political Action Committee, and the reorganization of Congress receive careful attention. A chapter on the Articles of Confederation and the Convention of 1787 has been included in this revision.

\$4.75

Blackwell's Political Texts

General Editors C. H. WILSON and R. B. McCALLUM

Mill: On Liberty and Representative Government

Edited by R. B. McCALLUM

LOCKE: Second Treatise of Civil Government and a Letter Concerning Toleration

Edited by J. W. GOUGH

HOBBS: Leviathan

Edited by M. OAKESHOTT

We are pleased to announce that The Macmillan Company distributes in the United States this important series which has just been inaugurated. The above are the first titles published in this series of texts of famous political writers, which give the student convenient, well-printed, and carefully edited volumes at a moderate uniform price. Each text is prepared and introduced by a critic of high academic standing who is actively engaged in the study and teaching of political thought and aware of the relevance of his particular subject to the general development of theory and the problems of our own age. The introductions contain a brief biographical and character sketch of the author presented in the text, followed by an interpretation of his thought. They aim not at a servile and mechanical recapitulation of the work, but at a critical analysis and appreciation with special concern to present the permanent value of the author's contribution to the theory of politics.

Forthcoming titles are:

HAMILTON: The Federalist
Edited by MAX BELOFF

ROUSSEAU: Contrat Social
Edited by CHARLES WILSON

BENTHAM: Selections from Political Writings
Edited by A. T. HARRISON

MACHIAVELLI: The Prince and a Selection from the Discourses

New additions to the series will be announced from time to time. All the books in the series of Blackwell's Political Texts are uniformly priced at \$2.25 each.

The Macmillan Company, 60 Fifth Ave., New York 11

3 New Editions for Fall

1. GOVERNMENT IN THE UNITED STATES Fourth Edition, 1947.

by Claudius O. Johnson, Washington State College

A completely revised and reset edition of the original and leading text featuring the functional approach to the study of American Government. This latest edition has lost none of the human interest and warmth of the earlier works despite the hundreds of changes that have been introduced to improve the book for use as a college text. The more obvious additions to the new book include two new chapters, many new charts and tables, and questions and problems for each chapter.

976 pages

25 Charts and Tables

\$4.25

2. AMERICAN NATIONAL GOVERNMENT Second Edition, 1947.

by Claudius O. Johnson

A somewhat briefer edition of *Government in the United States* designed especially for those institutions where the first course covers only the national phase of our government. This edition therefore omits the material on government at the state and local levels but retains all the other features of the larger volume.

690 pages

18 Charts and Tables

\$3.50

3. POLITICS, PARTIES AND PRESSURE GROUPS Second Edition, 1947.

by V. O. Key, Jr., Johns Hopkins University

A completely revised, re-edited and reset edition of the outstanding text in the field of political parties. As in the original book, this new edition continues to emphasize the role of pressure groups in politics. The revision brings the subject completely up to date and features a more liberal use of visual aids such as charts, graphs, and other figures.

767 pages

Just Published

The American Federal Government

By JOHN H. FERGUSON, Associate Professor of Political Science, Pennsylvania State College, and DEAN E. MCHENRY, Associate Professor of Political Science University of California at Los Angeles

McGraw-Hill Political Science Series
795 pages, \$3.75

This postwar college text covers the essential features of the American System of Government. In it the authors have striven to present controversial matters objectively, and to avoid being either too elementary and general on the one hand or too advanced on the other.

This book offers timely treatments of foreign relations and the United Nations; federal powers; federally owned and operated enterprises; compulsory military training; and control of atomic energy. It is fully illustrated. Pictorial aids make the subject matter clearer and more meaningful to the reader. Stress has been placed on the role of pressure groups in American government. An innovation is the coverage given to the formation, measurement, and nature of public opinion.

Now ready!

The American System of Government

972 pages, 6 x 9, illustrated, \$4.50

This basic college text by the same authors includes in the first part all of THE AMERICAN FEDERAL GOVERNMENT described above. In addition, this book includes material on state and local governments—their constitutions, powers, forms, institutions, functions and problems. The approach is structural; but functions are included, with emphasis placed upon the most important facts, trends, and problems.

*"A book which no person
can afford to ignore"*

STATES AND MORALS

By T. D. Weldon, Fellow of Magdalen College, Oxford. 301 pages, \$3.00.

Here is a stimulating and important book for all who are searching for sense and meaning in the present-day crisis in political and international affairs. Taking the stand that it is impossible to understand the points about which the Russians, the Americans, and the British are disputing without a clear understanding of the divergent political beliefs on which much of their practical thinking is founded, Mr. Weldon shows not only how political theories are connected with the facts and the problems of internal and international politics, but also gives an indication of their connection with other branches of philosophy.

For supplementary reading

GERMAN THEORIES OF THE CORPORATIVE STATE

By Ralph Bowen, Department of History, Columbia College. Ready this fall.

Here is a remarkably clear and penetrating book tracing the development of the principal types of corporatist doctrine in Germany, including the contributions of the early theorists such as Fichte, Hegel, von Gerlach, and Gierke. The principal emphasis of this book is on the theories developed and propagated after Germany had become a modern industrial nation with sharpening economic, social, and political conflicts. This study, first in the field, is of interest to leaders of industry and labor, economists and sociologists, and all those concerned with the development of contemporary ideologies.

A new text "that fills a gap

in the fields of Comparative Government
and International Politics,"

says Professor John Kieffer,
of the University of Alabama, of

GOVERNMENTS AND POLITICS ABROAD

Edited by JOSEPH S. ROUCEK, Professor of Political Science, chairman, Department of Political Science and Sociology, Hofstra College; with the collaboration of FLOYD A. CAVE, San Francisco State College; WILBERT L. HINDMAN, University of Southern California; GLENN E. HOOVER, Mills College; and THORSTEN V. KALIJARVI, U. S. Library of Congress; formerly Professor of Political Science, University of New Hampshire.

GOVERNMENTS AND POLITICS ABROAD covers *sociological* backgrounds, *political* dynamics, and *historical* forces for each of 33 nations which actively figure in the present-day world complex.

Here are some other facts about this new text:

- ✓ It describes and analyzes the major post-war problems—both *domestic* and *foreign*—of each of the 33 countries covered.
- ✓ Published in May, 1947, it is contemporary and up-to-date, including events as late as March, 1947.
- ✓ It has already been adopted for class use by:

Revised Edition of

PUBLIC ADMINISTRATION

*By JOHN M. PFIFFNER, Professor of Public Administration
The University of Southern California*

THIS new edition is a realistic, up-to-date analysis of the practical operation of public administration, stressing the functional approach to the study of municipal, state and national government. Professor Piffner has given careful consideration to all of the new developments in the field and covers subjects which were sketchily treated or not dealt with at all in the first edition.

"Here is an almost entirely new book, characterized by fresh writing, up-to-date illustrations, and a great deal of new and highly useful material. The second edition of this well-known textbook should win an even wider following than the first." American Political Science Review

The Record of American Diplomacy

edited by RUHL J. BARTLETT, *Tufts College*

A selection of key documents and other important sources which show the evolution of the foreign policy of the United States and the historical relations of this country with other nations. Over three hundred selections have been carefully edited, arranged chronologically with introductory notes, and printed in readable type. "The selection seems to me highly judicious and extremely thorough. . . . Mr. Bartlett has given us a volume which will be of very great value in the teaching of American diplomacy."—DEXTER PERKINS, *University of Rochester*.

768 pages; \$4.50 text

American Political Parties

by WILFRED E. BINKLEY

A strikingly fresh interpretation of the development of parties and statesmen. Essentially it traces the formation of group opinion from the making of the Constitution to the present, and the coalescing of group opinion into political parties under the master hands of the politicians.

443 pages; \$3.00 text

President and Congress

by WILFRED E. BINKLEY

A historical analysis of the political tug of war between executive and legislative arms of the Federal Government. Dr. Binkley traces the conflict throughout our history and shows how it has been resolved by strong Presidential and party leadership.

The Modern Democratic State

VOLUME I

By A. D. Lindsay, Master of Balliol College, Oxford

With a preface by W. Y. Elliott, Harvard University

THIS ALREADY ACKNOWLEDGED CLASSIC in political theory treats the modern democratic state as an historical type. The author characterizes it in terms of its purpose, or 'operative ideals,' as derived from the Greek and Christian heritage of Western civilization and from the secularization of the state brought about by the Renaissance and Reformation, and further influenced by the French Revolution and the Industrial Revolution.

Lord Lindsay's style has vividness and distinction, and the breadth of his treatment may be seen from his references not only to the work of such writers as Drucker, Veblen and Lippmann, but also to the Icelandic Sagas, Toynbee, Shaw, Whitman, and the novels of Mrs. Gaskell.

ELEMENTS OF PUBLIC ADMINISTRATION

Edited by *F. Morstein Marx*

- Fourteen brilliant authorities have combined, in this superb new study, a sound academic background with extensive governmental experience. The result is a highly unified text that demonstrates graphically the modern administrative effort, and that tells how to make that effort count.

NOTE THESE SIGNIFICANT FEATURES:

- Gives fundamental problems in the administrative process, and follows them through the entire system.
- Captures much of the operating spirit of government.
- Furnishes a mature understanding of public administration in the modern service state.
- Adopted by Harvard, Chicago, Columbia, Yale, Princeton, University of California, Northwestern, New York University, University of Michigan, University of Texas, University of Maine, College of the City of New York, and many others.

CENTRAL EASTERN EUROPE Crucible of World Wars

By *Dr. Joseph S. Roucek and Associates*

- Here is the background for understanding many U. N. headlines—in a well-organized description of the problems and development of the entire region east of Germany. All countries from the Baltic to the Aegean are treated, together with Russia, Finland, and Turkey—with special emphasis on the important events leading to World War II. The authors have discussed not only history and politics, but also the cultural, economic, and social aspects of these countries in relation to world peace.

"This book is an indispensable vade mecum to an understanding of a region rightly described as "Crucible of World Wars."—Emil Lengyel

**Volume VII of
DOCUMENTS
ON AMERICAN
FOREIGN
RELATIONS**

Statesmen and scholars have been lavish in their praise of this distinguished series which presents, in accessible and convenient form, the important documentary material bearing on the conduct of American foreign relations.

AMERICAN HISTORICAL REVIEW: "The great usefulness of this annual series has been recognized since the publication of the first volume."

SUMNER WELLES: "No publications upon this subject have been more enlightening, more impartial, or more comprehensive."

THOMAS A. BAILEY: "This series surpasses even the official State Department *Foreign Relations* in recency and breadth of coverage."

AMERICAN JOURNAL OF INTERNATIONAL LAW: "The whole series is indispensable."

WARREN R. AUSTIN: "The reader can find, in one volume, material that is scattered through an immense literature, and in many libraries is not available at all."

VOLUME VII

edited by LELAND M. GOODRICH and MARIE J. CARROLL

covers the year July 1944-June 1945. It demonstrates clearly the shift in emphasis to postwar problems when the European war ended and the defeat of Japan was in sight.
