**Aims and Scope:** The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

**Publishing, Advertising, and Subscription Offices:** Cambridge University Press, One Liberty Plaza, Floor 20, New York, NY 10006, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK (for U.K. and elsewhere).

**2020 Subscription Information:** *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is

published bimonthly in February, April, June, August, October, and December by Cambridge University Press, One Liberty Plaza, Floor 20, New York, NY 10006; Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK. Annual institutional subscription rates for Volume 36 (2020): Institutions online only US \$654.00, and online only UK and elsewhere £376.00. Individuals online only US \$380.00, and online only UK and elsewhere £214.00. Single part: US \$125.00 in the U.S.A., Canada and Mexico; UK £72.00 and elsewhere. Online only for all institutions. Print editions ceased in 2014. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

## CONTENTS

### Perspectives

- 1 The 'top 10' challenges for health technology assessment: INAHTA viewpoint  
*Brian O'Rourke, Sophie Söderholm Werkö, Tracy Merlin, Li Ying Huang and Tara Schuller*
- 5 Burning issues in health technology assessment and policy making: What's keeping senior health technology assessment users and producers up at night?  
*Rebecca Trowman, Daniel A Ollendorf and Laura Sampietro-Colom*
- 8 Implementing health technology assessment in Ghana to support universal health coverage: Building relationships that focus on people, policy, and process  
*Samantha Hollingworth, Martha Gyansa-Lutterodt, Lydia Dsane-Selby, Justice Nonvignon, Ruth Lopert, Mohamed Gad, Francis Ruiz, Sean Tunis and Kalipso Chalkidou*

### Commentaries

- 12 Comprehensive drug-class review framework for improved evidence-based drug policy and formulary modernization  
*Mina Tadrous, Sandra Knowles, Brent Ruddock, Paul Oh, Muhammad M. Mamdani, David N. Juurlink and Tara Gomes*
- 20 U.S. food and drug administration anticancer drug approval trends from 2016 to 2018 for lung, colorectal, breast, and prostate cancer  
*Tatiane Bomfim Ribeiro, Adalton Ribeiro, Luíza de Oliveira Rodrigues, Guilherme Harada and Moacyr Roberto Cuce Nobre*
- 29 Implementing evidence-informed deliberative processes in health technology assessment: A low income country perspective  
*Lydia Kapiriri, Rob Baltussen and Oortwijn Wija*
- 34 History of health technology assessment in Iran  
*Morteza Arab-Zozani, Mobin Sokhanvar, Edris Kakemam, Tahereh Didehban and Soheil Hassanipour*

### Methods

- 40 Picturing ELSI+: A visual representation of ethical, legal, and social issues, and patient experiences in health technology assessment in Canada  
*Murray D. Krahn, Joanna M. Bielecki, Karen E. Bremner, Claire de Oliveira, Nisha Almeida, Fiona Clement, Diane L. Lorenzetti, Patricia O'Campo, Petros Pechlivanoglou and Andrea C. Tricco*
- 50 An evidence-based framework for identifying technologies of no or low-added value (NLVT)  
*María Eugenia Esandi, Iñaki Gutiérrez-Ibarluzea, Nora Ibarгойen-Roteta and Brian Godman*
- 58 Integrating formal technology assessment into an integrated healthcare delivery system: Smart innovation  
*Erik J. Landaas, Geoffrey S. Baird, Ryan N. Hansen, David R. Flum and Sean D. Sullivan*

### Assessment

- 64 A narrative review of methods for applying user experience in the design and assessment of mental health smartphone interventions  
*Christopher Lemon, Kit Huckvale, Kenneth Carswell and John Torous*
- 71 Reviewers 2019
