

## American Journal of Medical Genetics

Some of the Papers from Volume 5 – 1980

- **Genetic Screening**  
Laurence E. Karp
- **Discriminant Analysis of Ribosomal Protein Synthesis Findings in Carrier Detection of Duchenne Muscular Dystrophy**  
V. Ionasescu, L. Burmeister, and J. Hanson
- **Autosomal Recessive Craniometaphyseal Dysplasia**  
Victor B. Penchaszadeh, Estatio R. Gutierrez, and Ernesto Figueroa P.
- **Malignant Melanoma and Charcot-Marie-Tooth Disease**  
Mark H. Greene, Gene D. Mead, Ronald R. Reimer, Wilma F. Bergfeld, and Joseph F. Fraumeni, Jr.
- **Investigation of Acephalus**  
J.S. Deacon, G.A. Machin, J.M.E. Martin, S. Nicholson, D.C. Nwankwo, and R. Wintemute
- **Sex Chromosome Aneuploidy and Anthropometry: A New Proportionality Assessment Using the Phantom Stratagem**  
R. Miller, W.D. Ross, A. Rapp, and M. Roede
- **Borderline Normal Intelligence in the Smith-Lemli-Opitz (RSH) Syndrome**  
R. Brian Lowry and Siu-Li Yong
- **Genetic Counseling Dilemmas: Down Syndrome, Paternal Age, and Recurrence Risk After Remarriage**  
Ernest B. Hook
- **Genetic Counseling for Adoptees at Risk for Specific Inherited Disorders**  
Gilbert S. Omenn, Judith G. Hall, and Kenneth D. Hansen
- **Huntington Disease: Linkage Analysis with Age-of-Onset Corrections**  
Susan E. Hodge, M. Anne Spence, Barbara F. Crandall, Robert S. Sparkes, Maryellen C. Sparkes, Michol Crist, and Susan Tideman
- **Utility and Limitations of Chromosome Banding in Pre- and Postnatal Service Cytogenetics**  
N.L. Fisher, E.D. Starr, T. Greene, and H. Hoehn
- **Characteristics of Births in Each Cycle of the Bimodal Monthly Distribution in Cystic Fibrosis**  
C.J. Brackenridge

Some of the Papers from Volume 6 – 1980

- **Female Pseudohermaphroditism and Associated Anomalies**  
Mark S. Lubinsky
- **The Importance of A'-d Ridge Count in Dermatoglyphic Diagnosis of the Ullrich-Turner Syndrome**  
P.A. Otto and Priscila Guimarães Otto
- **Autosomal-Dominant Inheritance of Distal Arthrogyposis**  
Michael K. McCormack, Patricia J. Coppola-McCormack, and Ming-liang Lee
- **Discriminating Among Single Locus Models Using Small Pedigrees**  
T.H. Beaty
- **Hallux Duplication, Postaxial Polydactyly, Absence of the Corpus Callosum, Severe Mental Retardation, and Additional Anomalies in Two Unrelated Patients: A New Syndrome**  
A. Schinzel and W. Schmid
- **Linkage Studies in Spinocerebellar Ataxia (SCA)**  
N. E. Morton, J-M. Lalouel, J.F. Jackson, R.D. Currier, and S. Yee
- **Genetic Analysis of von Willebrand's Disease in Two Large Pedigrees: A Multivariate Approach**  
Lynn R. Goldin, Robert C. Elston, John B. Graham, and Connie H. Miller
- **A Family With Three Recessive Traits and Homozygosity for a Long 9qh+ Chromosome Segment**  
Joe C. Christian, R.N. Dexter, C.G. Palmer, and J. Muller
