

W. B. HARLAND 1917–2003

It is with sadness that the editors record the death of W. Brian Harland, Editor of the *Geological Magazine* for 32 years from 1957 to 1988. An appreciation of his lifetime of geological work was previously published in the *Geological Magazine* (Volume **126**, 1989, pp. ii + 463–8), and obituaries have been published by *The Independent* (14 November 2003; reproduced on the CASP website at www.casp.cam.ac.uk) and the Geological Society of London (*Annual Report of the Geological Society 2003*).
