Screening For Hidden RESISTANCE

NOW AVAILABLE

from Infectio Diagnostic (IDI)

IDI-MRSA™

Helps Minimize Transmission of Nosocomial Infection

Next in IDI's series of fast and accurate DNA-based diagnostic tests, IDI-MRSA™ :

- detects methicillin resistance in *Staphylococcus aureus*
- eliminates false positives from coagulase-negative staphylococci

One test provides all the answers

- **Speed:** results in *1 hour*
- **Simplicity:** direct from a nasal swab
- **Sensitivity:** 93%
- **Specificity:** 96%

Using real-time PCR *Smart Cycler*® automated analysis, IDI's breakthrough assay eliminates the need for labor-intensive, time-consuming culture detection, offering an extremely effective way to reduce:

- MRSA-related morbidity and mortality
- the financial burden associated with managing MRSA infections

IDI-MRSA™

Revolutionizing Screening Practices

5-way infection control in one complete system

Only the Bardex® I.C. Complete Care™ Infection Control Foley Catheter* System including Bacti-Guard®* silver alloy coating^{1,2,3} offers complete infection control to address the 5 risk areas during catheterization.

1 Reduce risks while catheter is indwelling^{1,2,3}

2 Minimizes infection risk at the catheter-tubing junction

3 Repels bacteria and yeasts during drainage

4 Protects against retrograde bacterial migration at the outlet

5 Resists pathogen colonization at collection

Find out more about the Bardex® I.C. Complete Care™ Infection Control Foley Catheter* System.

Call 800-526-4455.

The University of Texas Health Center at Tyler The University of Texas at Tyler Faculty Position in Epidemiology

The Biomedical Research Department at The University of Texas Health Center at Tyler and the College of Nursing and Health Sciences at The University of Texas at Tyler are seeking to hire a state-funded epidemiology full-time faculty member at the Assistant, Associate or Full Professor rank, commensurate with experience. This is a tenure track position with tenure to be offered by The University of Texas at Tyler. The position will be shared between the Biomedical Research Department and the Department of Health and Kinesiology. Start-up funds are available.

Required qualifications: (a) Doctoral degree in epidemiology; (b) record of extramural support; (c) teaching experience in higher education. **Desirable:** (a) current, competitively funded, independent research program; (b) interest in clinical research related to outcomes, environmental health and/or health disparities.

Responsibilities/Duties: (a) Support ongoing NIH-sponsored clinical research projects, including health disparities projects and research related to geriatrics health care delivery; (b) support other clinical and nonclinical research projects; (c) teach two courses in areas of expertise in each long semester.

Tyler is situated approximately 100 miles east of the Dallas/Fort Worth metroplex amid the beautiful lakes and piney woods of East Texas. Tyler has a population of 100,000 and is the regional center for the arts, medical care, finance and higher education, ranking #3 for Best Small Places for Businesses and Careers by Forbes/Milken Institute. More information can be obtained at www.uthct.edu.

Interested candidates should submit a current CV, a future research plan and the names and addresses of three referees to Steven Idell M.D., Ph.D. Vice President for Research, The University of Texas Health Center at Tyler, 11937 US Highway 271, Tyler, Texas 75708-3154 or by email to steven.idell@uthct.edu.

EEO/AA Employer M/F/V/D. Applications are strongly encouraged from minorities and women. This position is security sensitive and subject to Texas Education Code 51.215, which authorizes employers to obtain criminal history information.

FACULTY SEARCH Department of Internal Medicine Division of Infectious Diseases The Ohio State University

The Division of Infectious Diseases has an opening for an Assistant or Associate Professor in the area of Hospital Epidemiology and Infection Control. Candidates should have an MD, MD/MPH, or MD/PhD. The individual will be responsible for development of an antimicrobial management program for the OSU Hospitals, consisting of OSU, James Cancer, University Hospitals East and the soon to be opened Richard M. Ross Heart Hospital. Board Certification in IM, board eligibility/certification in ID and an interest in antimicrobial resistance mechanisms are desirable. The individual will work closely with the Epidemiology and Pharmacy Departments to achieve their goals. The position provides potential to perform research related to Hospital Infection Control.

Applications should include a curriculum vitae, description of research experience, and a list of three references. Information about the University can be obtained by contacting our web site (<http://www.osu.edu>)

Send application to:
Larry Schlesinger, M.D.
Director, Division of Infectious Diseases
410 W. 10th Avenue, Room N-1147 Doan Hall
Columbus, OH 43210

The Ohio State University is an Equal Opportunity/Affirmative Action Employer. Qualified women, minorities, Vietnam-era veterans and individuals with disabilities are encouraged to apply.

FACULTY SEARCH Department of Internal Medicine Division of Infectious Diseases The Ohio State University The Columbus Health Department

The Division of Infectious Diseases in conjunction with the Columbus Health Department has an opening for an Assistant or Associate Professor in the area of Tuberculosis control and Clinical Infectious Diseases. The individual will spend one day/week in the Columbus Health Department managing a large patient population with TB. The individual will participate in the clinical and educational activities of the ID Division at the OSU Hospitals, consisting of OSU, James Cancer, University Hospitals East and the soon to be opened Richard M. Ross Heart Hospital. The position provides potential to perform Clinical research related to Tuberculosis control and epidemiology and to complement basic research efforts in TB related to the Center for Microbial Interface Biology. Candidates should have an MD or MD/MPH. Board Certification in IM and board eligibility/certification in ID are desirable.

Applications should include a curriculum vitae, description of research experience, and a list of three references. Information about the University can be obtained by contacting our web site (<http://www.osu.edu>)

Send application to:
Larry Schlesinger, M.D.
Director, Division of Infectious Diseases
410 W. 10th Avenue, Room N-1147 Doan Hall
Columbus, OH 43210

The Ohio State University is an Equal Opportunity/Affirmative Action Employer. Qualified women, minorities, Vietnam-era veterans and individuals with disabilities are encouraged to apply.
