# Expert Reviews in Molecular Medicine

Published in association with the Centre for Applied Research in Educational Technologies (CARET)

**EDITORS:**

ANDREA BOWDEN, *Centre for Applied Research in Educational Technologies, Cambridge, UK*  
CAROLYN ELLIS, *Centre for Applied Research in Educational Technologies, Cambridge, UK*

**Expert Reviews in Molecular Medicine** is an exciting online journal featuring high-quality reviews of the latest developments in this fast-growing field. Coverage includes: gene therapy, immunotherapeutics, drug design, vaccines, genetic testing, pathogenesis, epidemiology, genomics, diagnostics and techniques.

Reviews are published continually on the website. The journal's innovative functionality allows viewers to access not only the review articles, but also fully abstracted references, figures, photographs, tables, animations and molecular models.

**Expert Reviews in Molecular Medicine** will be of interest to biomedical researchers, clinicians and students, as well as researchers in the pharmaceutical and biotechnology industries.

Access to articles published from 1997-2002 (Vols 1-4) is free; go to [www.expertreviews.org](http://www.expertreviews.org) to view them. Access to articles published from 2003 is by purchase/subscription.

Subscribe. Online only. Volume 11, 2009. Constantly updated. E-ISSN 1462-3994

Individuals, online only: \$122 / £74

Institutions, online only: \$380 / £212

# Microscopy AND Microanalysis

EDITOR-IN-CHIEF

ROBERT L. PRICE, UNIVERSITY OF SOUTH CAROLINA

PUBLISHED FOR MICROSCOPY SOCIETY OF AMERICA

## AIMS AND SCOPE

*Microscopy and Microanalysis* publishes original research papers in the fields of microscopy, imaging, and compositional analysis. This distinguished international forum is intended for microscopists in both biology and materials science. The journal provides significant articles that describe new and existing techniques and instrumentation, as well as the applications of these to the imaging and analysis of microstructure. *Microscopy and Microanalysis* also includes review articles, letters to the editor, and book reviews.

## SUBSCRIPTIONS

Regular members of the Microscopy Society of America (annual dues \$50) receive the journal free as a member benefit. For more information, please visit the MSA website at <http://www.microscopy.org>

Regular members of the Microbeam Analysis Society (annual dues \$40) can receive the journal as a member benefit for \$20, in the USA; or \$45, foreign delivery.

For more information, please visit the MAS website <http://www.microbeamanalysis.org>

The journal costs \$320/£198 for non-member individuals (print and online access). To order, please visit the Cambridge Journals Online website <http://journals.cambridge.org/mam>

## VOLUME 15, 2009

Published bimonthly, in  
February, April, June, August, October and December  
Print ISSN 1431-9276 / E-ISSN 1435-8115

## AUTHOR BENEFITS

Publish on Cambridge Journals Online, offering:

- Online manuscript submission systems
- Direct article links for authors and institutional repositories
- Articles published online ahead of print, with built-in alerting systems to insure the research community is immediately informed
- Free online color figures
- Enriched content, including multimedia companions such as video and audio files
- Tables of contents, article abstracts, and sample issues free to all users

## CAMBRIDGE LIBRARY COLLECTION

*Books of enduring scholarly value*

In the spirit of Cambridge University Press's continued commitment to innovation and enterprise, the Cambridge Library Collection launched in July 2009, making an initial group of 475 out-of-print books available again. Another 1,000 will follow by the end of 2009 and 3,000 titles a year will be added as the program continues.

Drawing from the world-renowned collections in the Cambridge University Library, these books are carefully selected by experts in each subject area because of their scholarly importance or as landmarks in the history of their academic discipline.

Cambridge University Press is using state-of-the-art scanning machines to capture the contents of each book. The files are processed to give a consistently clear, crisp image, and the books finished to the high-quality standard for which the press is recognized around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely.

The Cambridge Library Collection will revive books of enduring scholarly value across a wide range of disciplines in the humanities, social sciences, science and technology.

QUARTERLY REVIEWS OF

# Biophysics

VOL. 42 NO. 3 AUGUST 2009

## CONTENTS

JOACHIM FRANK

Single-particle reconstruction of biological macromolecules in electron microscopy—30 years 139

XABIER AGIRREZABALA AND JOACHIM FRANK

Elongation in translation as a dynamic interaction among the ribosome, tRNA, and elongation factors EF-G and EF-Tu 159

RAMON LATORRE, CRISTIÁN ZAEZLER AND SEBASTIAN BRAUCHI

Structure–functional intimacies of transient receptor potential channels 201

---

## FORTHCOMING PAPERS

MASATSUNE KAINOSHO AND PETER GÜNTERT

SAIL – Stereo-array isotope labeling
