PRESENTS TO THE LIBRARY - - - - - vii

SYLLABUS of Papers read during Session 1913–14 - - v

BURGESS, A. G.

Concurrency of lines joining vertices of a triangle to opposite vertices of triangles on its sides - - 58

DOUGALL, Dr JOHN.

Notes on Spherical Harmonics - - - - 30

GIBSON, Prof. G. A.

John Sturgeon Mackay, M.A., LL.D. - - - 151

GRAY, Professor A.

On the Attractions of Spherical and Ellipsoidal Shells - 91

HUMBERT, PIERRE.

On some results concerning integral equations - - 19

INCE, E. LINDSAY.

On certain theorems in Continued Fractions equivalent to Riemann's and other Transformations of the P-function - - - - - - 101

LIST OF MEMBERS - - - - - - 160

MARR, W. L.

Morley's Trisection Theorem : an Extension and its Relation to the Circles of Apollonius - - 136

MILNE, ARCH.

On the Equation of the Parabolic Cylinder Functions - 2

MUIRHEAD, Dr R. F.

(1) Some Graphical Methods for determining Centres of Gravity - - - - - - 36

(2) Theorems analogous to Newton's Theorems on Symmetric Functions, with Elementary Proofs - 44

https://doi.org/10.1017/S0013091500034933 Published online by Cambridge University Press

PAGE

OFFICE-BEARERS - - - - - - - - 1

SOMMERVILLE, Dr D. M. Y.

Note on Gauss' Proof of the Reciprocity of Parallelism - 15

TAYLOR, D. G.

On Certain Formulae connected with the Function $(\cos n\alpha - \cos n\theta)/(\cos\alpha - \cos\theta)$ - - - 49

TAYLOR, F. GLANVILLE, and W. L. MARR.

The six trisectors of each of the angles of a triangle - 119

TAYLOR, F. GLANVILLE.

The Relation of Morley's Theorem to the Hessian Axis and Circumcentre - - - - - 132

WHITTAKER, Professor E. T.

(1) On the continued fractions which represent the functions of Hermite and other functions defined by differential equations - - - - 65

(2) On the general solution of Mathieu's equation - 75

YOUNG, ANDREW W.

On the Quasi-periodic Solutions of Mathieu's Differential Equation - - - - - - 81
