

	PAGE
The influence of a low-protein diet on the level of zinc and iron in the serum and liver of the pig. By B. S. PLATT and W. FRANKUL	vii
The importance of dietary fat for the utilization of protein in the very young. By D. J. NAISMITH	viii
A technique for the estimation of the ruminal production of volatile fatty acids (VFA) in the cow. By I. H. BATH, C. C. BALCH and J. A. F. ROOK	ix
Gastro-intestinal absorption of ²⁸ Mg in sheep. By A. D. CARE and D. B. ROSS ..	x
An experiment in dietary survey methodology. By J. V. G. A. DURNIN and ELAINE C. BLAKE	xi
Sulphur and nitrogen balances in rats receiving commercially processed protein concentrates. By E. L. MILLER and K. J. CARPENTER	xii
The addition of herring and vegetable oils to the diet of cats. By PATRICIA P. SCOTT and E. R. HUMPHREYS	xiii
Patterns of movement of particles of different size in the alimentary tract of the cat. By PATRICIA P. SCOTT and E. R. HUMPHREYS	xiii
Vitamin A in the kidney of the cat. By T. MOORE, I. M. SHARMAN and PATRICIA P. SCOTT	xiv
The effect of the status of the animal upon the oxygen consumption of the isolated diaphragm in the rat and the newborn cat. By R. E. MOORE, H. BAUM and H. A. EL-KHANAGRY	xv
Xanthine oxidase in human milk. By E. C. OWEN, L. I. HART and F. E. HYTEN ..	xv

FORTHCOMING ISSUE

It is hoped to publish in the next issue of the *Proceedings of The Nutrition Society* reports of symposia on Individual Variation (17 March 1962) and The Significance of Selenium and Vitamin E in Nutrition (14 April 1962) and abstracts of communications to be presented at the meetings for original communications on 9 February 1962 and 25 May 1962.

CONTENTS OF VOLUME 21, No. 1, 1962

(All rights reserved)

SYMPOSIUM PROCEEDINGS

One Hundred and Forty-third Scientific Meeting

NUTRITION AND METABOLIC DEFECTS		PAGE
Historical aspects of inborn errors of metabolism. By H. M. SINCLAIR		1
Clinical aspects of inborn metabolic defects. By P. R. EVANS		12
Nutrition in relation to phenylketonuria. By L. I. WOOLF		21
The metabolism of copper and Wilson's disease. By J. N. CUMINGS		29
Chronic magnesium deficiency. By PAUL FOURMAN and D. B. MORGAN		34
The possible role of dietary factors in the aetiology and pathogenesis of sprue, coeliac disease and idiopathic steatorrhoea. By A. C. FRAZER		42

One Hundred and Forty-fourth Scientific Meeting

NUTRITION AND POULTRY		
The bird as an experimental animal. By W. P. BLOUNT		53
Advances in nutritional knowledge through studies with birds. By M. E. COATES		60
Some basic mechanisms of hunger and satiety. By S. LEPKOVSKY, S. FELDMAN and I. SHARON		65
Antibiotics and other growth-promoting substances. By J. H. TAYLOR		73
Wild birds as human food. By M. F. M. MEIKLEJOHN		80

One Hundred and Forty-fifth Scientific Meeting

AGRICULTURAL PROBLEMS IN DEVELOPING COUNTRIES		
Climatic limitations to development in the tropics. By L. DUDLEY STAMP		84
Problems in the improvement of output of arable crops in developing countries. By A. H. BUNTING		91
Problems of increasing animal production. By J. C. SHAW		99
Livestock production with particular reference to the nutritional problems of West Africa. By T. J. LANSBURY		106
Problems of fishery development in primitive communities. By R. S. RACK		114

ABSTRACTS OF COMMUNICATIONS

One Hundred and Forty-sixth Scientific Meeting

Fractionation of human faecal lipids. By P. D. S. WOOD and F. AYLWARD		i
Lipid excretion in the rat. By T. R. E. PILKINGTON, F. AYLWARD and P. D. S. WOOD		ii
The distribution of nitrogen in young rats which had lost equal amounts of weight after being fed on diets (a) low in protein and (b) high in protein but limited in calories. By J. W. T. DICKERSON and VERA CABAK		iii
Electroencephalographic observations during induced hypoglycaemia in young dogs and pigs. By G. PAMPIGLIONE, C. J. FRIEND and C. R. C. HEARD		iii
Correlation of albumin and vitamin A in human serum. By A. W. WOODRUFF and R. J. C. STEWART		iv
The thyroid glands of protein-malnourished pigs. By B. S. PLATT and R. J. C. STEWART		v
Pathology of acute experimental protein malnutrition in the force-fed rat. By B. S. PLATT, K. HALDER and B. H. DOELL		vi
