The Journal of Navigation

THE *Journal* is published quarterly by the Institute and is edited by M. W. RICHEY. It contains original papers contributing to the science of navigation, including those presented at meetings of the Institute together with the ensuing discussion. In addition the *Journal* includes a record of current navigational work, reviews of important books, and other matters of concern to those interested in navigation. The views expressed in the *Journal* are not necessarily those of the Institute, or of any organization or department to which the authors may belong. Crown Copyright may be reserved.

The *Journal* is issued free to all members of the Institute. It is sold to the public at one pound fifty per copy or, by subscription, at six pounds thirty-five per annum (post free) and may be obtained through all booksellers and John Murray (Publishers) Ltd., 50 Albemarle Street, London W1. Back numbers dated two years prior to the current volume may be obtained from William Dawson & Sons, Ltd., (Back Issues Department), Cannon House, Folkestone, Kent.

Enquiries for advertising space should be addressed to the Institute offices.

The postal address of the Institute is The Royal Institute of Navigation, at The Royal Geographical Society, 1 Kensington Gore, London SW7. (Telephone: 01-589 5021).

Volumes of the *Journal* can be bound for two pounds. The parts should be sent to William Clowes & Sons Ltd., 15 Cavendish Square, London, W1M 0HT.

'Electronic Chernikeeff'

SOLID STATE

Accurate and dependable at all speeds down to 1-knot and distance run to within 1%.

Suitable for Ship's Side or Bottom mounting—equal accuracy.

Linear Speed Analog Voltage Transmission available direct from Log.

Has built-in Transmission for 'True-motion' Radar.

Low installation costs—simple maintenance.

The Retractable Log Tube can be provided remotely controlled from the Wheel-house.

The ideal Log for all Mercantile Vessels—backed by over 50 years actual experience in the design and manufacture of Chernikeeff's Impeller System.

Log makers to the British Navy and Overseas Navies for more than 40 years.

MARCONI-MARINE world wide service available to users.

Manual of Navigation

Volume I

The revised edition of this volume follows the previous editions in giving a practical guide to navigation and pilotage which, although written primarily for naval officers, is suitable for all students of navigation.

£2.50 (£2.75 by post)

Volume II

This volume describes off-shore navigation—the safe conduct of a ship across the open sea where, in general, bearings of objects on land cannot be obtained except by means of radio waves (i.e., using radio fixing aids). The first chapters are mainly concerned with distances, courses, track and charts. The volume also contains an outline of meteorology and weather forecasting, and gives examples of the meteorological observations that every ship should make and report when at sea.

£2.50 (£2.71 by post)

Free lists of titles (please specify subject/s) are available from Her Majesty's Stationery Office, P6A (Z9N), Atlantic House, Holborn Viaduct. London EC1P 1BN.

Government publications can be bought from the Government Bookshops in London (post orders to P.O. Box 569, SE1 9NH), Edinburgh, Cardiff, Belfast, Manchester, Birmingham and Bristol, or through booksellers.

THE INTERNATIONAL HYDROGRAPHIC BUREAU

Avenue Président J. F. Kennedy, MONACO

publishes

**twice a year in January and July,
an English and a French edition of**

THE INTERNATIONAL HYDROGRAPHIC REVIEW

This publication contains articles of topical interest on hydrography, hydrographic surveying and related subjects.

Each number contains an average of 160 pages, 18×27 cm., and numerous illustrations.

Price per number 14 French Francs, plus postage.

Orders should be sent direct to the Bureau's Headquarters in Monaco, but payments can be made to the Bureau's account at Barclays Bank Ltd., Chief Foreign Branch, 152-156 Upper Thames Street, London, E.C.3. Specify English or French edition when ordering.

A reduction of 25% on the list price is allowed to booksellers. A 30% reduction is granted to government offices and to naval or merchant marine officers of the IHO's Member States who send their orders direct to the Bureau.

Authoritative Sailing-Ship Books

COOLIE SHIPS AND OIL SAILERS

This book is a record of two special phases of sea life in Sailing Ships
 190 Pages 9½" × 7¼" 56 Illustrations £2.10 (per post £2.35)

THE COLONIAL CLIPPERS

The Great Wooden Ships of the Blackwall and other lines
 400 Pages 9½" × 7¼" 81 Illustrations, 4 Plans £2.70 (per post £2.95)

THE CHINA CLIPPERS

A History of the celebrated Clipper Ships in the Chinese Opium and Tea Trades
 310 Pages 9½" × 7¼" 34 Illustrations £2.50 (per post £2.75)

THE LOG OF THE "CUTTY SARK"

The most authentic work, compiled from her log books and captain's abstracts
 344 Pages 9½" × 7¼" 52 Illustrations, 9 Plans £3.50 (per post £3.75)

THE LAST OF THE WINDJAMMERS

Vol. I. The Sailing Ships of the Seventies-Eighties
 535 Pages 9½" × 7¼" 126 Illustrations, 17 Plans £3.60 (per post £3.89)
 Vol. II. The Deep-Water Sailing Ships, 1888-1928
 470 Pages 9½" × 7¼" 174 Illustrations, 17 Plans £3.60 (per post £3.89)

By BASIL LUBBOCK

All Lubbock's work is the product of original and comprehensive research. These books are recommended without reserve to the student of the sailing-ship

The simple radar

RADIOLOCATOR—radar designed throughout for simplicity and reliability

Conventional . . . yes, but the best of its kind. 'Radiolocator' gives you really dependable, workaday radar at the right price.

Solid-state circuitry. Only two thermionic devices—a long-life magnetron and choice of 12-inch or 16-inch CRT. All normal marine radar facilities, plus true bearing indication, are standard; and options include True Motion, compass stabilisation, reflection plotter, dual displays, and full or partial interswitching of dual installations.

The thinking radar

PREDICTOR—the most advanced marine radar in the world

Radar plotting is as easy as pressing a button. 'Predictor' radar tracks and plots every target on the screen continuously, automatically and with infallible accuracy. True or relative tracks are presented as 4 plots equally spaced in time, up-dated every 10 seconds.

And before you alter course or speed, 'Predictor' will work out the new triangle of velocities for every target and plot the *impending* situation—before you alter.

Marconi complete naval communications

The Marconi comprehensive range of s.s.b/i.s.b naval communications equipment meets all present and foreseeable requirements for voice and automatic telegraphy.

The complete range conforms to Royal Naval standards of resistance to shock, vibration and climatic conditions, and has been NATO codified by the British Ministry of Defence. It is in wide use by the Royal Navy and in the modernization of twenty other navies.

Marconi Communication Systems Limited also has a complete range of communications

equipment available for shore stations; digital transmission. and airborne communications.

In addition the Company is able to assist naval departments and shipbuilders with the planning, fitting, testing and tuning of complete ship communications installations.

Marconi Radio Division, designers and suppliers of h.f and l.f point-to-point systems, line-of-sight and tropospheric scatter microwave systems—part of the total systems capability of Marconi Communication Systems.

ROYAL GEOGRAPHICAL SOCIETY

NEW GEOGRAPHICAL LITERATURE AND MAPS

HALF-YEARLY ACCESSIONS TO THE SOCIETY'S
LIBRARY AND MAP ROOM

ANNUAL SUBSCRIPTION: £4 (U.S.A. \$12.00) post free from the Office of the Society.

A current, up-to-date, printed bibliography of Geography and Cartography, invaluable to Librarians. Each number includes new books, all new atlases and maps received by the Society, and a reference list of the most important articles drawn from about 130 periodicals in all the principal languages.

As an aid to Library staff, a special edition on gummed paper is also available, price £4 (U.S.A. \$12.00) per single copy.

Institute Publications

The Haven Finding Art

by E. G. R. Taylor.

'A better book on the art of navigation down to Captain Cook's days has not been written in the English language.' (*Mariner's Mirror*.)

This new edition contains an appendix by Joseph Needham, F.R.S., on the history of navigation in China. (Hollis & Carter, £2.50. Members £2.00 plus postage.)

The Use of Radar at Sea

A Handbook on Marine Radar. (Hollis & Carter, £3.50)

Observational Errors

An elementary account of the ideas behind the statistical theory of errors, by E. W. Anderson & J. B. Parker. (John Murray, 25 p)

The Geometrical Seaman

An illustrated work on early navigational instruments, by E. G. R. Taylor & M. W. Richey. (Hollis & Carter, £1.50)

The Mathematical Practitioners of Tudor and Stuart England

by E. G. R. Taylor.

(Cambridge University Press, £4.00
Members £3.00 plus postage.)

An account of the ideas, instruments and methods in navigation and surveying between 1485 and 1715 with lists of the mathematical practitioners with biographical notes and details of their work.

The Mathematical Practitioners of Hanoverian England

by E. G. R. Taylor.

(Cambridge University Press, £4.50
Members £3.37 plus postage.)

This book, a sequel to the earlier volume, takes the story up to 1840, by which time the independent mathematical practitioner had virtually disappeared, absorbed into the large firm or organization as a consequence of industrial and social change.

In the Wake of the Torrey Canyon: Reflections on a Disaster

by L. Oudet

An investigation of all the implications for shipping today of the great oil-spill of 1967. (Hollis & Carter, £1.00. Members 75p.)

Technische Hogeschool Delft

DELFT UNIVERSITY OF TECHNOLOGY

Sub-department of Naval Architecture

VISITING PROFESSOR

for the new Chair of

MARITIME STUDIES

with particular reference to

Nautical and Technical Aspects

Applications are invited for appointment to the above mentioned Chair.

The Professor for Nautical and Technical Aspects will be responsible for the direction and coordination of education over a wide range of aspects of the relevant field such as navigation- and communication-systems, nautical aspects of control systems, hydrographic surveying, ship routing, questions of safety at sea and aspects of ship's manning.

Attention will also require to be given to the influence of these nautical science aspects on the requirements of ship design and construction. He will be expected to work in close collaboration with his colleagues in the Sub-department.

In addition, the professor will be expected to organise and direct programmes of scientific research, both undergraduate and postgraduate, in these fields.

Those wishing to be considered for the appointment are invited to send a Curriculum Vitae together with a note on any special qualifications and/or experience, which they consider to be particularly relevant, to the Chairman of the Selection Board Professor ir. J. H. Krietemeijer, Mekelweg 2, Delft, tel. no. 015-33222 ext. 5306 or to the Dean of the Sub-department Professor ir. J. Gerritsma, at the same address, tel. no. 015-33222 ext. 5298, from either of whom any further information desired can be obtained.

Anyone who considers he can introduce suitable candidates to the Board, is invited to do so.

Information submitted in connection with this appointment whether by correspondence or otherwise, will be treated in strict confidence.
