Editorial Office

Stazione Zoologica "Anton Dohrn", Villa Comunale, I-80121 Naples, Italy

HISTORY AND PHILOSOPHY OF THE LIFE SCIENCES is an international journal devoted to the historical development of the life sciences and of their social and epistemological implications. The journal also covers the broader philosophical concerns of biology and medicine. The main interest of the journal is modern western scientific thought, although it also includes any period in history of the life sciences (e.g., classical antiquity, the Middle Ages) and any cultural area, (e.g., Chinese and Indian medicine).

READERSHIP

The journal is aimed primarily at professional historians and philosophers, but is also of interest to scientists and teachers.

the life of science

The Creation of Scientific Effects

Heinrich Hertz and Electric Waves

Jed Z. Buchwald

In this first detailed scientific biography of Hertz, Buchwald examines Hertz's work on electromagnetic waves within the social and intellectual context of nineteenth-century German physics. By situating Hertz's work within the larger scientific community of his day, Buchwald demonstrates how the tacit knowledge underlying scientific practice can be recovered.

Paper \$32.95/£26.25 496 pages illus. Cloth edition available

Instruments

**Edited by Albert Van Helden
and Thomas L. Hankins**

These eleven essays show how new scientific instruments have been used historically not only to advance understanding, but also to impress audiences and elevate careers, claim authority, and serve as a bridge between natural science and popular culture. Contributors include Jan Golinski, Bruce J. Hunt, Deborah Warner, Bruce Hevly, Robert W. Smith and Joseph N. Tatarewicz, Thatcher Deane, Simon Schaffer, Timothy Lenoir, and Robert Frank.

ISBN: 90-5183-553-1 Bound Hfl. 140,-/US-\$ 82.-
ISBN: 90-5183-581-7 Paper Hfl. 45,-/US-\$ 26.-

Medical ethics has been a constant adjunct of Western medicine from its origins in Greek times. Although the *Hippocratic Oath* has been intensely studied, until recently there has been very little historical work on medical ethics between the *Oath* and Thomas Percival's *Medical Ethics* of 1803, which is commonly thought of as the first treatise on modern medical ethics. This volume brings together original research which throws new light on how standards of behaviour for medical practitioners were articulated in the different religious, political and social as well as medical contexts from the classical period until the nineteenth century. Its ten essays will place the early history of medical ethics into the framework of the new social and intellectual history of medicine that has been developed in the last ten years.

Journal for General Philosophy of Science

**Zeitschrift für allgemeine
Wissenschaftstheorie**

Editors **Lutz Geldsetzer, Gert König**

The *Journal for General Philosophy of Science/Zeitschrift für allgemeine Wissenschaftstheorie* is a forum for the discussion of a variety of attitudes concerning the philosophy of science. It has as its subject matter the philosophical, especially methodological, ontological, epistemological, anthropological, and ethical foundations of the individual sciences. Particular emphasis is laid on bringing both the natural, the cultural, and the technical sciences into a philosophical context, within which the historical presuppositions and conditions of the current problems of the philosophy of science are also included in the discussion.

The *Journal for General Philosophy of Science/Zeitschrift für allgemeine Wissenschaftstheorie* has already been in existence for over two decades. It has been successful in its attempt to serve as a forum that bridges the gap between the different sciences, especially the natural, cultural, and social sciences. One of its purposes is to discuss and contrast the common as well as the different specific methodological and philosophical foundations of the individual sciences, taking into account all currently relevant positions of the philosophy of science.

In recent years considerable insight has been gained into the problems of current philosophy of science by considering the historical dimension of the sciences. This is why more intensive efforts will be made in the future towards the integration of historical and systematic considerations.

The journal contains:

- articles
- discussions
- reports on the state of the philosophy of science in individual countries
- reviews
- a bibliography of the major journals in the field of the history and philosophy of science.

The journal is of interest to philosophers, especially philosophers of science, as well as to scholars from the field of the natural, cultural, social and technical sciences who are interested in becoming aware of the philosophical implications of their disciplines and in being stimulated by the transfer of methods, leading ideas, concepts and theories from other fields.

Journal for General Philosophy of Science is indexed/abstracted in *INSPEC, Philosopher's Index, Information Philosophie.*

STUDIES IN HISTORY AND PHILOSOPHY OF SCIENCE

Joint Editors: Nicholas Jardine and Andrew Cunningham, *Department of History and Philosophy of Science, University of Cambridge, Cambridge CB2 3RH, UK*

Senior Consulting Editor: Gerd Buchdahl, *Department of History and Philosophy of Science, University of Cambridge, Cambridge, UK*

(00401)

Subscription Rate 1994: Volume 25 (6 issues) £ 230.00 (US\$355.00)

ISSN 0039-3681

Audience: Historians and Philosophers of Science, Mathematicians, Physicists, Natural Scientists.

AIMS AND SCOPE

"... no journal other than *Studies* accepts articles across the full range of interests in interdisciplinary history and philosophy of science. Historians of science... would thus be well advised to scan its contents on a regular basis." Rachel Laudan in *Isis*, Volume 81, Number 2, 1990.

Studies in History and Philosophy of Science is essential reading for students and teachers concerned with the historical, social and intellectual contexts of the sciences and with their methodology and epistemology. The journal particularly encourages studies which integrate philosophical, historical and sociological considerations. Its orientation is international, with contributions from a wide range of cultural perspectives. Papers published are of the highest scholarly quality. Since the journal's inception it has proved an invaluable source both for reflective scientists and for workers in the history, philosophy and sociology of science. In 1993 *Studies* launched a new section entitled *Studies in History and Philosophy of Modern Physics* edited by Michael Redhead and Peter Galison. This section covers the history, philosophy and sociology of physics from the mid nineteenth century to the present.

Membership of the Society, which normally includes a subscription to *The British Journal for the History of Science*, is open to all persons approved by the Council of the Society and elected at an ordinary meeting. The annual subscription for the membership year 1994 is £22.00 (\$45.00) or £11.00 (\$25.00) for associate membership, which includes students at centres of higher education. There is an Introductory Offer for ordinary members who pay £17.00 (\$35.00) for the first year. Applications for membership should be made on a form which is available from the Society's Executive Secretary at the address below. Other sterling rates may apply to overseas members.

Meetings: The Society mounts an ambitious programme of meetings. The pattern is flexible, but includes a three-day summer meeting, usually held at a different British University or Polytechnic each year. About four other meetings, lasting for between one and three days, are held during the year, sometimes devoted to a clearly defined theme or an important anniversary, and often arranged in conjunction with other scholarly societies.

The British Journal for the History of Science is the official organ of the Society. All correspondence on the contents of the *Journal* should be addressed to the Editor, Dr Janet Browne, The Wellcome Institute for the History of Medicine, 183 Euston Road, London, NW1 2BE, England. Books for review should be sent to the Reviews Editor, Dr John Henry, Science Studies Unit, University of Edinburgh, 21 Buccleuch Place, Edinburgh EH8 9LN.

Advertising: Contact the Journals Advertising Manager, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU.

Other publications: BSHS Monograph Series is designed to allow the publication of monographic studies in the history of science quickly and cheaply. All correspondence on the subject of monographs, and any new suggestions for titles, should be sent to the Series Editor, Dr P. Weindling, Wellcome Unit for the History of Medicine, 45-47 Banbury Road, Oxford OX2 6PE, England. Monographs are available to members at a special price, post-free from the Society's Executive Secretary. Non-members may obtain them through bookshops, or post-free from the Executive Secretary. Titles are as follows:

2. *The Letters of Georges Cuvier: A Summary Calendar*. Ed. by Dorinda Outram. 1980. £4.50/\$10.00 (£3.50/\$8.00 to members).
3. *Rationality and Ritual: The Windscale Inquiry and Nuclear Decisions in Britain*. By Brian Wynne. 1982. £7.00/\$15.00 (£5.00/\$11.00 to members).
4. *The Royal Society and Its Fellows 1660-1700: The Morphology of an Early Scientific Institution*. By Michael Hunter. Second edition 1994. £10.00/\$19.00 (£8.00/\$15.00 to members).
5. *Francis Bacon's Natural Philosophy: A New Source. A Transcription of Manuscript Hardwick 72A with Translation and Commentary*. By Graham Rees, assisted by Christopher Upton. 1984. £7.90/\$17.00 (£5.60/\$12.00 to members).
6. *Archives of the British Chemical Industry, 1750-1914: A Handlist*. By Peter J. T. Morris and Colin A. Russell. Contributing editor John Graham Smith. 1988. £14.50/\$31.00 (£9.00/\$19.00 to members).
7. *Index to the Scientific Correspondence of John William Dawson*. By Susan Sheets-Pyenson. 1992. £20.00/\$44.00 (£12.00/\$26.00 to members).
8. *Science and Nature: Essays in the History of the Environmental Sciences*. Ed. by Michael Shortland. 1993. £10.00/\$19.00 (£8.00/\$15.00 to members).

Each year, the Society publishes a *List of Theses in History of Science* in British universities. This is available free to members, and at £3.00 (\$6.00) to non-members on request to the Executive Secretary. Standing orders are accepted from members or non-members who wish to receive the list regularly.

The Society's *Newsletter*, an informal publication edited by Dr Frank A. J. L. James, RICHST, The Royal Institution, 21 Albemarle Street, London W1X 4BS, appears in January, May and September each year. It is free to members, £6.00 (\$12.00) for institutions and non-members. The Society's Education Section also has a regular Newsletter, *Education Forum*, edited by Dr Isobel Falconer, Lumbo Farmhouse, St Andrews, Fife KY16 8NS.

Administrative business of the Society is handled by The Executive Secretary, Wing-Commander G. Bennett, 31 High Street, Stanford in the Vale, Faringdon, Oxfordshire SN7 8LH. The Society is registered in England as a Limited Company (No. 562208) and is a Registered Charity (No. 258854).

Copying: This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with the CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to CCC of the per-copy fee of \$5.00.
