

Instructions for Authors: Papers and short notes from contributors anywhere in the world are welcome for consideration for publication in *The Lichenologist* and may be on any aspect of lichenology. However, priority in publication will be given to those who are members of the British Lichen Society.

Manuscripts must be typewritten on foolscap or A4 size paper in double or treble spacing with 1 inch margins all round and submitted **in triplicate** to the Senior Editor (Dr D. H. Brown) or (for North America) Professor V. Ahmadjian, Department of Biology, Clark University, Worcester, Mass 01610, USA.

Line illustrations must be in black ink on stiff white card, preferably Bristol board.

As a guide to the layout of synonymy, keys, references, etc., recent issues should be consulted. The spellings of locality names in Britain and abroad must follow those of the most recent editions of maps published by the Ordnance Survey and *The Times Atlas of the World*, respectively. Titles of periodicals should be given in full (except in taxonomic treatments in text where they should be abbreviated as in the fourth edition of the *World List of Scientific Periodicals* and its supplements). In lists of references the publisher and place of publication of books should be given; editions other than the first should be indicated.

Copyright/Offprints. Authors submitting a manuscript do so on the understanding that if it is accepted for publication, copyright in the paper for the United States of America shall be assigned to the Society. In consideration for the assignment of copyright, the Society will supply 50 offprints of each paper, but not of Short Communications or Book Reviews. Further offprints may be ordered at extra cost at the proof stage. The Society will not put any limitation on the personal freedom of the author to use material contained in the paper in other works which may be published in North America or elsewhere. Reprints must be ordered directly from Academic Press Inc. when the author returns the proofs of his article.

Page charges are not levied, but if funds to cover printing costs are available quicker publication, or that of unusually long papers, can be facilitated.

Books dealing with any aspect of lichenology will be reviewed. Publishers wishing to have works reviewed in *The Lichenologist* should send them to Professor Hawksworth (address under 'Referees') in the first instance.

This journal is covered by *Current Contents* and *Biological Abstracts*.

Notice: While the Senior Editor and Editors endeavour to check the accuracy of statements in contributions in as far as they are able, it should be emphasized that views expressed in papers in *The Lichenologist* are those of their authors and do not necessarily represent those of the British Lichen Society, Academic Press Ltd, the Senior Editor, or the Editors.

Referees: The function of taxonomic referees is to assist members of the British Lichen Society in the identification of lichens. Specimens submitted should be adequate in size and well documented, including details of country, county or vice-county, borough or parish, precise locality and grid reference, altitude, date, habitat and ecology, notes, name of collector and collecting number. Identification should be attempted before sending material to a referee and details of spores and chemical reactions included where appropriate. Members wishing to send large numbers of specimens to a referee should first of all check that he is willing to name their collections for them. Return postage should always be included.

Referees (Beginners)

F. H. Brightman, B.Sc., F.L.S., Address under 'Conservation Chairman'.

F. S. Dobson, F.L.S., Address under 'Treasurer'.

O. L. Gilbert, Ph.D., Address under 'Bulletin Editor'.

D. Jackson Hill, D.Phil., Department of Extra-Mural Studies, The University, Bristol BS8 1HR.

Referees (Advanced)

B. J. Coppins, Ph.D., Address under 'President'. (*Bacidia* and *Micarea* spp. only.)

A. Fletcher, Ph.D., Center of Marine Biotechnology, 600 East Lombard Street, University of Maryland, MD 21202, USA (Marine and maritime lichens.)

Professor D. L. Hawksworth, D.Sc., F.L.S., F.I.Biol., CAB International Mycological Institute, Ferry Lane, Kew, Surrey TW9 3AF (Lichenicolous fungi.)

P. W. James, B.Sc., F.L.S., Department of Botany, British Museum (Natural History), Cromwell Road, London SW7 5BD. (All groups.)

J. R. Laundon, F.M.A., Department of Botany, British Museum (Natural History), Cromwell Road, London SW7 5BD. (Sterile crustose lichens.)

F. Rose, Ph.D., Rotherhurst, 36 St Mary's Road, Liss, nr Petersfield, Hants GU33 7AH. (Corticolous lichens.)

G. Salisbury, 38 Lostwithiel Street, Fowey, Cornwall. (Thelocarpaceae.)

J. W. Sheard, Ph.D., Address under 'Regional Treasurer'. (*Buellia*, *Rhizocarpon*, *Rinodina*.)

L. Tibell, Ph.D., Institute of Systematic Botany, University of Uppsala, P.O. Box 541, S-751 21 Uppsala 1, Sweden. (Caliciales *s. lat.*)
