Chair of the IAU Editorial Board

Ian I Corbett, IAU Assistant General Secretary, ESO, Germany

The *Proceedings* Series of the International Astronomical Union (IAU) comprises high-quality and timely previews and reviews of fundamental and state-of-the-art astrophysical developments around the world, as presented at some ten IAU-sponsored conferences per year. The Series is essential reading for both professional astrophysicists and students, for finding comprehensive reviews and for studying new developments in specialized fields.

CAMBRIDGE
UNIVERSITY PRESS

AIMS AND SCOPE

International Journal of Astrobiology publishes original papers and review articles on Astrobiology Science. News of interest to the astrobiology community and book reviews will also feature. Contact one of the editors if you have questions regarding suitability of a subject area, news submission or book review.

The fields covered include:

- * Cosmic prebiotic chemistry
- * Planetary evolution
- * Search for planetary systems and habitable zones
- * Origins, evolution and distribution of life
- * Extremophile biology and experimental simulation of extraterrestrial environments
- * Life detection in our solar system and beyond
- * Technologies and space missions for astrobiology, and planetary protection
- * Human expansion, ecosystems beyond Earth and terraforming
- * Ecosystems beyond Earth
- * Intelligent life and societal aspects of astrobiology

There are no page charges or length restrictions. All articles are submitted to peer-review.

SUBMISSION OF MANUSCRIPTS

Contributions for consideration for publication should be submitted via our online website at http://mc.manuscriptcentral.com/submit_ija

During the submission process authors will be asked to select an appropriate Editor for their paper. Areas of interest for the Editors are as follows:

Dr. Simon Mitton – General Papers, Philosophy, Astronomy

Dr. Rocco Mancinelli – Extremophiles, Microbiology, Nitrogen Cycling

Dr. Frances Westall – Origin of Life in a Geological Context, Search for Life on Mars, Biosignatures of Early Earth Sediments.

The *initial* submission should preferably be in Word or PDF format. If your paper is accepted you will need to submit a Word document with illustrations as separate eps or tif files. LateX files can also be accepted for the final version; however a PDF must also be supplied for printing.

For papers with high resolution figures or micrographs please *also* submit a hard copy version – in colour if appropriate. Black and White halftones and colour illustrations have to be scanned at a high resolution (minimum 300dpi). For very large files contact our production department for further instruction.

Please consult our full Instructions for Contributors at journals.cambridge.org/ija

CONTENTS

Editorial

- 145 **Special issue with papers from the ESLAB 2008 Symposium on ‘Cosmic Cataclysms and Life’**
N. André, B. H. Foing & C. S. Cockell

Research papers

- 147 **The Sun, geomagnetic polarity transitions, and possible biospheric effects: review and illustrating model**
Karl-Heinz Glassmeier, Otto Richter, Joachim Vogt, Petra Möbus & Antje Schwalb
- 161 **Delivery of Complex Organic Compounds from Planetary Nebulae to the Solar System**
Sun Kwok
- 169 **Extrapolating cosmic ray variations and impacts on life: Morlet wavelet analysis**
N. Zarrouk & R. Bennaceur
- 175 **The ultimate cataclysm: the orbital (in)stability of terrestrial planets in exoplanet systems including planets in binaries**
Elke Pilat-Lohinger
- 183 **Gamma-ray bursts as a threat to life on Earth**
B. C. Thomas
- 187 **Impact during the proterozoic era possibly inundated the earth with phosphorus**
M. S. Sisodia
- 193 **Experimental evidence for the global acidification of surface ocean at the Cretaceous–Palaeogene boundary: the biogenic calcite-poor spherule layers**
Pavle I. Premović
- 207 **Climate modelling of mass-extinction events: a review**
Georg Feulner
- 213 **The evidence for and against astronomical impacts on climate change and mass extinctions: a review**
C. A. L. Bailer-Jones
- 241 **Late-stage stellar evolution: impact on planets**
Roberto Silvotti
- 243 **Abstracts**
