Intending members are requested to communicate with one of the Secretaries, G. L. Parsons, Merchant Taylors' School, Sandy Lodge, Northwood, Middlesex; Mrs. E. M. Williams, 17, Belgrave Square, Nottingham. The subscription to the Association is 15s. per annum, and is due on Jan. 1st. It includes the subscription to "The Mathematical Gazette".

Change of Address should be notified to Mrs. Williams. If Copies of the "Gazette" fail for lack of such notification to reach a member, duplicate copies can be supplied only at the published price.

Subscriptions should be paid to the Hon. Treasurer, Mathematical Association Gordon House, Winchcombe, Gloucestershire.

ON GROWTH & FORM

BY

Sir D'Arcy Wentworth Thompson

Revised and Enlarged Edition 50s net

This well-known book deals with the biological problems of growth and form, and form and function, in their necessary relation to physical principles and mathematical laws. It has been out of print and very scarce for many years, but now at last has been carefully revised, reset, and considerably enlarged. It still deals with its complicated subject in a simple way; the physics used is elementary, the mathematics easier still, but they are enough to throw light on fundamental problems of biology.

CAMBRIDGE UNIVERSITY PRESS

THE MATHEMATICAL ASSOCIATION, which was founded in 1871, as the *Association for the Improvement of Geometrical Teaching*, aims not only at the promotion of its original object, but at bringing within its purview all branches of elementary mathematics.

Its purpose is to form a strong combination of all persons who are interested in promoting good methods of teaching mathematics. The Association has already been largely successful in this direction. It has become a recognised authority in its own department, and is continuing to exert an important influence on methods of examination.

“THE MATHEMATICAL GAZETTE” (published by Messrs. G. BELL & SONS, LTD.) is the organ of the Association. It is issued at least five times a year. The price per copy (to non-members) is usually 3s. each.

The *Gazette* contains—Articles, Notes, Reviews, etc., dealing with elementary mathematics, and with mathematical topics of general interest.
