

# 17th BIENNIAL CANADIAN NEURO-ONCOLOGY MEETING

---

JUNE 9 – 11, 2016

Thompson Hotel, 550 Wellington St W  
TORONTO • ONTARIO • CANADA

## ABSTRACTS

# ORAL ABSTRACT PRESENTATIONS ~ Table of Contents

## YOUNG INVESTIGATOR AWARDS

	<i>M.A. Qazi</i>	Modelling Therapy Resistance for the Identification of Treatment-Refractory Cell Population(s) in Human Glioblastoma	S1
	<i>O. Cohen-Inbar</i>	Recruitment of Immune Effector Cells against Glioblastoma-Multiforme by a MHC-Chlorotoxin Chimeric Protein	S1

## BRAIN METASTASES

OS1-136	<i>O. Cohen-Inbar</i>	Time-Delayed Contrast Enhanced MRI Improves Detection of Brain Metastases: A Prospective Validation of Diagnostic Yield	S1
OS2-166	<i>M. Singh</i>	A Novel Model of Human Lung-to-Brain Metastasis and its Application to the Identification of Essential Metastatic Regulatory Genes	S2
OS3-187	<i>J. Detsky</i>	Differentiating Radionecrosis from Tumor Progression Using IVIM perfusion Fraction in Brain Metastases Treated with Radiosurgery	S2

## PEDIATRICS

OS4-161	<i>B. Manoranjan</i>	Activated Wnt Signaling for the Therapeutic Targeting of Treatment-Refractory Medulloblastoma Stem Cells	S2
OS5-173	<i>A. Delaidelli</i>	Inhibition of eEF2K as a Novel Therapeutic Strategy in Neuroblastoma and Medulloblastoma	S3
OS6-210	<i>D. G. Munoz</i>	Gliomas in Young Adults: Presence of Mutations in Histone Genes	S3

## GLIOMA

OS7-145	<i>W. Curry</i>	Combination Immunotherapy for Glioma: Beyond PD 1 Inhibition	S4
OS8-150	<i>T. T. Huang</i>	Encouraging Survival with Toca 511 and Toca FC Compared to External Lomustine Control	S4
OS10-147	<i>W. C. Sin</i>	Tumor-Associated Astrocytes Promote Glioma Invasion via Cx43	S4
OS11-165	<i>F. G. Davis</i>	Brain Cancer Survival and Conditional Survival Rates in Canada (1992-2008)	S5

## MENINGIOMA

OS12-137	<i>O. Cohen-Inbar</i>	The Geriatric Scoring System (GSS) for Risk Stratification in Meningioma Patients as a Predictor of Outcome in Patients Treated With Radiosurgery	S5
OS13-175	<i>P. Tonge</i>	Genetic Profiling of Radiation Induced Meningiomas	S5
OS14-208	<i>S. Karimi</i>	The prognostic role of pre-operative complete blood count (CBC) in progression-free survival in patients with meningioma	S6

## BRAIN METASTASES

PS1-131	<i>C. Tseng</i>	Dosimetric feasibility of the hybrid magnetic resonance imaging (mri)-linac system for brain metastases	S6
PS1-140	<i>O. Cohen-Inbar</i>	The effect of timing of stereotactic radiosurgery treatment of melanoma brain metastases treated with ipilimumab	S6
PS1-159	<i>A. Ghare</i>	A case of intracranial metastases from renal pelvic carcinoma and review of literature	S7
PS1-177	<i>E. Le Rhun</i>	Diagnosing and treating leptomeningeal metastasis across Europe: A web-based survey	S7
PS1-181	<i>D.R. MacDonald</i>	Dural Metastases from Breast Cancer: A Case Series	S7
PS1-189	<i>M. Ruschin</i>	A Universal Predictive Model for Dose Fall-Off in MLC-Based Stereotactic Brain Radiosurgery	S8

## QUALITY OF LIFE

PS1-125	<i>G. Bauman</i>	Assessment of Function and Quality of Life in a Phase II Multi-Institutional Clinical Trial of Fractionated Simultaneous In-Field Boost	S8
---------	------------------	---	----

PS1-127	<i>R. Cashman</i>	Radiotherapy for Patients with 1-2 Brain Metastases A Mixed Method Study of a Peer Support Intervention for Newly Diagnosed Primary Brain Tumour Patients	S8
PS1-160	<i>M.N. Tsao</i>	A Telephone Based Cognitive Assessment Tool for Brain Metastases Patients	S9
PS1-163	<i>C. Mueller</i>	Engaging in Difficult Discussions with Neuro-Oncology Patients: A Case Conference Based Quality Improvement Initiative	S9
PS1-188	<i>I. Lax</i>	Rehabilitation Consultation: An Integrated Model for Addressing Rehabilitation Concerns in the Primary Brain Tumor Population	S9
<b>PEDIATRICS</b>			
PS1-158	<i>R. Kaur</i>	The Role of LIN28A in Neoplastic Transformation of Human Embryonic Stem Cells (hESCs)	S10
PS1-169	<i>D. Bakhshinyan</i>	Discovering the Treatment Refractory BTIC Population in Group 3 Medulloblastoma through Therapy Adapted Patient-Derived Human Mouse Xenograft (PDX) Model	S10
PS1-170	<i>N. Garg</i>	Bmi 1 is a Therapeutic Target in Recurrent Childhood Medulloblastoma	S10
PS1-176	<i>K.W. Wang</i>	Where Have All the Fat Cells Gone? A Comparative Analysis of Adiposity Patterns in Childhood Brain Tumor Survivors and Non-Cancer Controls	S11
PS1-182	<i>S. Thulasirajah</i>	Epidemiology and Review of the Trends of Brain Tumors in Children under the Age of 3: A Report from the Canadian Pediatric Brain Tumour Consortium	S11
PS1-183	<i>S. Patel</i>	Recommendations for the Referral of Patients from Proton Beam Therapy, an Alberta Health Services Report: A Model for Canada?	S11
PS1-186	<i>S. Patel</i>	Needs Assessment for a Pediatric Proton Therapy Program in Canada	S12
PS1-218	<i>Q. Jiang</i>	Characterization of Ganglioglioma as a Neurodevelopmental Disorder: A Cast of Arrested Development?	S12
<b>GLIOMA BASIC SCIENCE</b>			
PS2-153	<i>B. Zhai</i>	Dianhydrogalactitol (VAL-083) Treatment Causes Irreparable DNA Double-Strand Breaks, S/G2 Phase Cell-Cycle Arrest and Cell Death in Cancer Cells	S12
PS2-167	<i>V.G. LeBlanc</i>	CIC Deficiency is Associated with Dysregulation of Genes Involved in Cell Adhesion and Developmental Processes	S13
PS2-171	<i>P. Vora</i>	Bmi 1 Identifies Treatment-Refractory Stem Cells in Human Glioblastoma	S13
PS2-172	<i>P. Vora</i>	Preclinical Validation of a Novel CD33/CD3 Bispecific T-Cell Engager (BiTE) Antibody to Target Patient-Derived Glioblastoma Cells	S13
PS2-174	<i>S. Agnihotri</i>	Hexokinase 2 Drives Radio-Resistance through ERK Signaling and Sensitizes Cells to Azole Compounds	S14
PS2-178	<i>C.F. Cho</i>	Brevican-Specific Peptides for the Development of Next-Generation Targeted Theranostics for High Grade Gliomas	S14
PS2-194	<i>Y. Chen</i>	Bcl-2 Family Member Mcl-1 Expression is Reduced Under Hypoxia by the E3 Ligase FBW7 Contributing to BNIP3 Induced Cell Death In Glioma Cells	S14
PS2-197	<i>S. Mansouri</i>	DICER Governs Characteristics of Glioma Stem Cells and the Resulting Tumors in Xenograft Mouse Models of GBM	S15
PS2-201	<i>T. Zhao</i>	Bone Marrow-Derived Mesenchymal Stem Cells-Mediated Radioresistance in Glioma	S15
PS2-203	<i>T. Zhao</i>	Bone Marrow-Derived Mesenchymal Stem Cells Reverse Ionizing Radiation-Induced Active State of Endothelial Cells in Glioblastoma	S15
PS2-209	<i>T. Thanasupawat</i>	RXFP1 Promotes Temozolomide Chemoresistance by STAT3 Signaling Pathway Activation	S15
PS2-217	<i>C.C. Poon</i>	Treatment of Glioblastoma Brain Tumor-Initiating Cells with Microglial and Macrophage-Derived Cytokines	S16

**PATHOLOGY**

PS2-195	<i>R. Nejad</i>	Integrating Molecular Workings into the World Health Organization (WHO) Classification of Tumours of the Central Nervous System: A Survey from the Neuro-Oncology Community	S16
PS2-205	<i>A. Alamsahebpoor</i>	Application of Computer-Assisted Diagnostics for Immunohistochemistry Analysis of Gliomas	S16

**IMAGING**

PS2-196	<i>M.A. Morrison</i>	Investigating the Spatial Agreement Between Pre-Operative Functional MRI and Intra-Operative Direct Cortical Stimulation	S17
---------	----------------------	--	-----

**GLIOMA CLINICAL**

PC3-151	<i>G. Zadeh</i>	Toca 5: A Phase 2/3 Randomized, Open-Label Study of Toca 511, a Retroviral Replicating Vector, Combined with Toca FC versus Standard of Care in Patients Undergoing Planned Resection for Recurrent Glioblastoma (GBM) or Anaplastic Astrocytoma (AA) (NCT02414165)	S17
PC3-152	<i>W.M.H. Sayeed</i>	Impact of Extent of Resection Upon Outcome in Newly Diagnosed Glioblastoma: A Study in the Molecular Era	S17
PC3-154	<i>K.C. Shih</i>	Phase I/II Study of VAL-083 in Patients with Recurrent Glioblastoma	S18
PC3-155	<i>B.J. O'Brien</i>	Phase II Study of Dianhydrogalactitol in Patients with MGMT-Unmethylated, Bevacizumab-Naïve Recurrent Glioblastoma	S18
PC3-164	<i>J. Ross</i>	Urban-Rural Residence and Brain Cancer Survival in Canada (1996-2008)	S18
PC3-179	<i>P.P. San</i>	Analysis of Glioblastoma Physical Characteristics in Patients Benefiting from Tumor Treating Electric Fields Therapy	S19
PC3-180	<i>T.B. Nguyen</i>	Is Conventional and Perfusion MRI Useful in Predicting Histopathology Defined Percentage of Recurrence in High Grade Gliomas	S19
PC3-190	<i>E. Kosteniuk</i>	Impact of Functional Magnetic Resonance Imaging on Clinical Decision Making and Outcomes in Patients with Low Grade Gliomas	S19
PC3-191	<i>E. Kosteniuk</i>	Assessment of Preoperative Functional MRI Measurement of Language Lateralisation in Brain Tumour Patients	S20

**OTHER CLINICAL**

PC3-128	<i>M.C. Concepcion Sales</i>	Clinical Profile and Treatment Outcomes of Patients with Primary CNS Lymphoma in a Tertiary Hospital in the Philippines: An Eight-Year Retrospective Review	S20
PC3-129	<i>M.C. Concepcion Sales</i>	Primary Intracranial Round Cell Sarcoma in an HIV Patient: A Case Report and a Review of Literature	S20
PC3-130	<i>M.C. Concepcion Sales</i>	A Meta-Analysis on the use of High-Dose Methotrexate Only Versus Combination Chemotherapy for the Treatment of Newly-Diagnosed Patients with Primary CNS Lymphoma	S20
PC3-138	<i>O. Cohen-Inbar</i>	Stereotactic Radiosurgery for Intracranial Hemangiopericytomas – A Multicenter Study	S21
PC3-141	<i>O. Cohen-Inbar</i>	Long-Term Results of Stereotactic Radiosurgery for Skull Base Meningiomas	S21
PC3-142	<i>O. Cohen-Inbar</i>	Gamma Knife Radiosurgery in Patients with Persistent Acromegaly or Cushing's Disease: Long-Term Risk of Hypopituitarism	S22
PC3-157	<i>D.R. MacDonald</i>	Subependymal Giant Cell Astrocytoma (SEGA) in Adults without Tuberous Sclerosis	S22
PC3-216	<i>A. Ghare</i>	Presentation of Intradural Extramedullary Plasmacytoma with Intratumoral Hemorrhage: Case Report and Review of Literature	S22
PC3-219	<i>R. Harrison</i>	Evaluation of Delayed FDG-PET in Differentiating Progressive Disease from Pseudoprogression in Brain Tumors	S23
