MODERN GREEK WRITERS

Edited by EDMUND KEELEY and PETER BIEN

Ten scholars and critics view the remarkable literary renaissance of Modern Greece in terms of its European background. From Zissimos Lorenzatos' discussion of the 19th-century poet Solomos to Peter Bien's analysis of Kazantzakis' fervent demoticism, they give evidence of the tremendous creative activity that has been going on as Greek writers in all genres turn both outward to Europe and inward to their own culture.
