# THE BUILDING OF CASTLE HOWARD

CHARLES SAUMAREZ SMITH

**D**rawing on historical sources—family papers in the castle archive, original library catalogs, texts left by the castle’s residents and visitors—Saumarez Smith reconstructs how and why the Earl of Carlisle had Castle Howard built, how the building was financed, and what role the castle played in the earl’s political career and social ambitions.

“The strength of *The Building of Castle Howard* is the vivid and convincing picture Saumarez Smith pieces together of a newly-ambitious late-17th-century man . . . Equally successful is the use of

contemporary letters to reconstruct episodes such as Hawksmoor’s struggles to defend his sublimely magnificent mausoleum.”—*The Spectator*

“A story of the utmost fascination. Charles Saumarez Smith has assembled so much dazzling detail for his fine book that his telling of it breathes a sense of the period; and there are plentiful illustrations in support.”—*The Literary Review*

## Child Labor and the Industrial Revolution

Clark Nardinelli

*"Industrialization, far from being the source of the enslavement of children, was the source of their liberation."*

—From the book

This book is the first full-length study by a modern economic historian of one of the most controversial aspects of the industrial revolution in Britain and is certain to spark heated debate. The employment of children in British textile factories has long been a symbol of the harmful effects of the industrial revolution. Critics of industrial society cite the experience of children as evidence that the human costs of industrialization outweighed the gains in production. Unlike most other critical studies, *Child Labor and the Industrial Revolution* considers child labor from the standpoint of the family economy, in particular the often miserable alternatives open to poor families that made factory work preferable to other possible uses of children's time. Clark Nardinelli's economic approach leads to new interpretations of such topics as economic exploitation and the effects of child labor laws.

## War from the Top German and British Military Decision Making during World War II

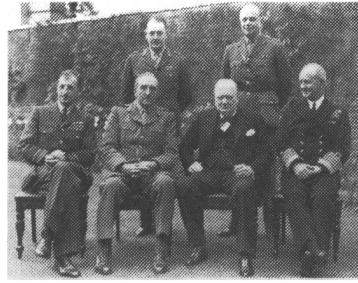

Alan F. Wilt

*"Wilt's comparative approach permits us fresh perspectives on both sides of the war. Moreover, Wilt has chosen to compare two of the major rival belligerents at the most stimulating and interesting level at which such comparison might be made, the level of the summit of decision making—with the magnetic figures of Hitler and Churchill playing major roles in his narrative and analysis. The book should appeal not only to historical specialists attracted by its fresh perspectives, but also to a large portion of the audience of general readers."*

—Russell F. Weigley

Wilt compares Britain's chiefs-of-staff system with Germany's less streamlined version and traces the development of both nations' military strategies throughout the war. He shows how the strategy of each side was carried out in eleven different campaigns, including land battles in Poland, France, North Africa, and the Soviet Union.

# Current Anthropology

A dynamic, contemporary forum for anthropologists

Publishing research from all subfields of anthropology.

CA keeps you up-to-date in your own specialization and in key related disciplines. CA's articles and reports discuss new theories and methodologies, stimulating your own research. Review articles and relaxed reports of major conferences appear in each volume.

CA is the one truly international journal in the field.

Our authors will keep you informed of national research traditions, while CA's interviews will give you a personal insight into the background of renowned scholars. CA readers enjoy interviews with scholars such as Fei Xiaotong, Koentjaraningrat, Phillip Tobias, P. E. de Josselin de Jong, and Chie Nakane.

A forum for the analysis of controversial points.

CA's Discussion and Criticism keeps you at the center of lively debate. As the dovetailing of various disciplines is highlighted, you'll be stimulated by the critical thought and discussions that follow.

## **Ways of Lying**

Dissimulation, Persecution, and Conformity in  
Early Modern Europe

Perez Zagorin

The religious persecution and intellectual intolerance of the sixteenth and seventeenth centuries compelled the resort to misdirection, hidden meaning, secrecy, and deceit by many heterodox groups and thinkers. In this strikingly original book, Perez Zagorin traces the origin, theory and practice of these dissimulations and surveys some of the chief sources of dissimulation doctrines in the Bible and the works of such theologians as Jerome, Augustine, Luther, Erasmus, and Calvin.

"An impressive and scholarly work of cultural analysis that coins a fresh label for the sixteenth and seventeenth centuries: the age of dissimulation."

—Lacey Baldwin Smith, Northwestern University

\$35.00 cloth

## **The Sinews of Power**

War, Money and the English State, 1688-1783

John Brewer

John Brewer's brilliant analysis of eighteenth-century Britain shows how the nation emerged as a major international power and makes clear that the drastic increase in its military involvement (and success) in Europe and the expansion of her commercial and imperial interests would not have happened without a concurrent radical increase in taxation, a surge in deficit financing, and the growth of public administration.

"Brewer is to be congratulated [for] identifying a major theme and pursuing it with great skill."

—John Cannon, *Times Literary Supplement*

# Imagining Britain

## IN THE NINETIES

JOHN STOKES

In this interdisciplinary study John Stokes relates the controversial topics of the 1890s—the status of the “New Journalism,” the “degenerative” influence of Impressionist painting, the dubious morality of the music hall, the urgent need for prison reform, the prevalence of suicide—to primary literary texts.

“Undoubtedly one of the most interesting, scholarly, and important books on the popular and literary culture of fin-de-siècle Britain.

—Phyllis Grosskurth

*Cloth \$29.95 222 pages 39 halftones*

## THE WORK OF GRINLING GIBBONS

GEOFFREY BEARD

This magnificently illustrated book documents the career of the virtuoso seventeenth-century woodcarver whose ornate and naturalistic works are found in St. Paul's Cathedral, Hampton Court, Windsor Castle, Kensington Palace, and in country houses and churches throughout England and Scotland.

*Cloth \$39.95 160 pages 125 halftones and line drawings*

NOW IN PAPER

## IMAGINING THE PENITENTIARY

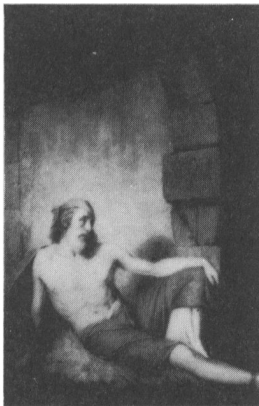

*Fiction and the Architecture of Mind in Eighteenth-Century England*

JOHN BENDER

“Bender’s argument has profound and radical implications for our understanding of the eighteenth-century novel, and implications as well for the study of the literature and cultural institutions of other periods. His work deserves a wide audience in literary criticism, art history, social history, and anthropology, and will force all of its readers to rethink basic assumptions about the relation between culture and society.”—Stephen Greenblatt

# Thomas More

*The Search for the Inner Man*

Louis L. Martz

One of the world's leading More scholars here presents an eloquent defense of the "man for all seasons," challenging the recent negative views of Thomas More's integrity and motivation and providing new understanding of the man and his writings.

"Splendid ....Deeply rewarding."

—O.B. Hardison, Jr. Illus. \$16.95

# Beowulf: A Likeness

Randolph Swearer, Raymond Oliver, and Marijane Osborn; introduction by Fred C. Robinson

In this beautiful book a designer, a poet, and a specialist in Anglo-Saxon literature recreate *Beowulf* for a modern audience. Interweaving evocative images, a new interpretation in verse, and a running commentary that helps clarify the action, setting, and imagery of the poem, the authors bring a *likeness* of this ancient and elusive tale to today's reader. 72 duotones \$39.95

# SPENSER'S POETRY

and the Reformation Tradition

JOHN N. KING

In this extended treatment of Edmund Spenser's place in the Reformation literary tradition, John King presents the poet as a rival of classical and Italianate literary predecessors by placing his work within a distinctively English context. Rather than follow those contemporaries who rejected the unpretentious devices of mid-Tudor satire and allegory, Spenser, it is shown, infuses them with sophisticated standards of the Continental Renaissance.

King's study begins with the consideration of Spenser's debut as an innovator who, paradoxically, emulates "Chaucerian" precedent for pastoral satire. The work culminates in a detailed reading of Book I of *The Faerie Queene* that addresses Spenser's reformation, within the all-inclusive frame of allegorical romantic epic, of deficient and worldly forms of romance, pastoral, and tragedy into a set of purged and elevated Christian counterparts.
