

Gaiser stated she would seek approval from her organization to host this meeting in the USA. The time and place of the meeting will be advised later.

11. Closure of Meeting

The meeting closed with the Convenor expressing thanks to the members and observers who attended and contributed to the success of the meeting. It was agreed that the group had progressed since its formation in 1988 and first meeting in 1989. Also the group had been a catalyst for

better interaction between space and Antarctic agencies and positive initiatives, some of which were announced at this meeting.

Appreciation was expressed to M Collet and his staff for their hospitality and to ESA for making their facilities available.

D.J. Lugg
Convenor
