Any social domain can be a focus for slogans, such as anti-bullying and road safety.

### Anti-bullying

Be a buddy, not a bully  
Bully-free, the way to be  
Bullying free starts with me  
Change your ways, being nice pays  
Courage is fire and bullying is smoke  
Don't hate, congratulate  
Don't stand by, stand up against bullying  
Have a blast: leave bullying in the past  
Help, don't hurt  
It isn't big to make others feel small  
Kind is the new cool  
Meanness is a sign of weakness  
Niceness is priceless  
Not all bruises can be seen  
Only matadors like bullies  
Stop bullying and make a difference  
Take a stand, lend a hand  
You are stronger than you think  
Don't be mean behind the screen  
You don't have to fight, just be polite

### Road safety

Alert today, alive tomorrow  
Normal speed meets every need  
Night doubles traffic troubles  
Leave sooner, drive slower, live longer  
Stop accidents before they stop you  
Safe driving saves lives  
Better late than never  
Drive with reason this holiday season  
Speed thrills but kills  
Look every way every day  
Be alert, accidents hurt  
Have another day  
Stay alive, think and drive  
Drive safety rules are your best tools  
Driving faster can cause disaster  
Road safety is a state of mind, accident is an absence of mind  
Follow traffic rules, save your future  
Drive, don't fly  
Fast drive could be last drive  
Don't drink and drive
